

Chandler Reach winery

Benton city, Washington
Monique Ortiz
Fall 2020

This is a photo of me using a forklift to dump grapes into the hopper for destemming (processing)

This experience has helped prepare me for my future duties and responsibilities in a winery/vineyard. With the hands on learning experience I plan t to put forward my knowledge and become a winemaker

Chandler reach winery was founded by Lynn Paris in 1997 he is extremely passionate about Bordeaux and Italian varieties and produces almost entirely red wine

In this internship I was responsible for processing fruit, collecting samples, checking brix, TA, pH and managing the work orders for the day. I worked on racking, barreling, bottling, sanitizing and keeping ferments moving.
