C. Information about the image.

Host: *Hosta* (Genus *Hosta*)

Disease name: N/A

Pathogen: *Hosta virus X*, Genus *Potexvirus*

Short caption: Symptoms of *Hosta virus X* on hosta

Additional text:

Hosta virus X, first described in 1996, is widespread in hosta in the US. In both images, a healthy leaf is on the left, with disease progression from left to right.
