00:41:21 Shannon Morton: Shannon Morton-2
00:42:07 David Hentzel-2: Has anyone ever heard of a farm plan that simply gives all its produce directly to foodbank taking tax deduction instead of trying to make sales? I know it sounds like a "cop out" but its something we are considering.
00:42:37 coco faria-1: I worked at a farm that did that, David! It's called gaining ground farm and its in Massachusetts!
00:42:46 Aba Kiser - 1: YES! The Jefferson County Food Bank has a lot of farm sites this year - I am sure they would be happy to talk to you.
00:42:58 Kevin Gorman - 2: Giving Gardens in Kingston grows for food banks.
00:43:39 Cecilia Hardwick - Clark: I love this idea! I want to learn more too. Thanks David for bringing it up!
00:43:41 David Hentzel-2: So its not a dumb idea!
00:43:54 Matt Taylor-5: Please post CEU link in chat - I missed the slide. Thx
00:44:03 Brad Waterman 5: <https://agr.wa.gov/services/food-access/programs-and-services/farm-to-food-pantry-initiative#:~:text=WSDA's%20Farm%20to%20Food%20Pantry,low%2Dincome%20residents%20of%20Washington.>
00:44:35 Kellie Henwood - 2: Food Bank Farm and Garden: <https://ptfoodbankgarden.com/>
00:44:44 Hope Hochhalter -4: Hope Hochhalter of Dancing Maiden Farm. Located in Nine Mile Falls, WA just outside of Spokane
00:44:51 Brad Waterman 5: I believe this link might help you connect to resources for the farm to food pantry initiative.
00:45:04 Aba Kiser - 1: CEU Credit Form: tinyurl.com/cultivatingssuccessform
00:45:59 Mike Devany - 4: Lightning River Ranch, Twisp
00:46:56 Lincoln Bode-3: Oops I meant that as for everyone sorry
00:48:16 Lincoln Bode-3: our farm non profit LIVE FOOD FOR LIVE PEOPLE has been focused on community food security at no cost to the consumer

for 2 decades. I would love to talk with any of you interested

00:48:24 Joel Swenson - 4: Joel Swenson here with Charlie Foxtrot Farm in Pateros WA. Check out our Instagram @charliefoxtrotfarms for more info! Awesome to see so many folks on here.

00:48:28 Kate Smith-1: <https://eatlocalfirst.org/business-tools/food-to-bank-on/>

00:48:54 Kaisha H. (she/her) 1: A mentor told me once, 40 years of farming and you only ever do it 40x. Like no other craft, its a slow and steady learning process

00:49:33 Kaisha H. (she/her) 1: Eat Local First is the program I got into! I am so excited, and terrified.

00:53:14 Meryl Eleanor: What is the break down of your land uses on the farm? You said there was a total of 10 acres. 2 acres veggie, 2.5 fruits, what is the rest?

00:53:54 Peter Mustin 2: Woodbridge Far, Chimacum

00:54:16 Kaisha H. (she/her) 1: http://www.tilthalliance.org/images/books/mnggcover/image_view_fullscreen

00:55:05 Kellie Henwood - 2: Great advice

00:56:01 Garrett Waters: we have 2.5 acres in fruit orchard (apples, cherries, etc)

00:56:25 Hope Hochhalter -4: Oh boy do I need that!

00:56:46 Garrett Waters: we also have some swales with beneficial, as well as rows of evergreens for wind block

00:57:00 Laurie Woicik - 4: Good point, Garrett on growing what we're familiar with. Our local backyard market grew all these sunchokes but I think I was the only one that bought them, knew what they were, only because I had an uncle that grew them when I was little. I think everything went to waste

00:57:21 Roderick Capistrano Camarce - 2: pretty cool

00:57:25 Garrett Waters: some of the land is too hilly too farm, so we just keep it mowed and keep the weeds from setting seed

00:57:52 Garrett Waters: yeah i love sunchokes. I grew them one year but they weren't too popular in our CSA

00:57:57 Roderick Capistrano Camarce - 2: learned this year to find balance between growing for fun and making money

00:58:11 Roderick Capistrano Camarce - 2: when picking crops

00:59:19 Roderick Capistrano Camarce - 2: does that apply to pelleted seed for carrots?

00:59:30 Whitney Jacques - 4: Yes

01:00:39 Whitney Jacques - 4: Pelleted seed is typically finer things, like lettuce and carrot, that go bad much more quickly than larger seeds.

01:01:42 Pat Munts 4: What about Territorial Seed?

01:01:45 Cecilia Hardwick - Clark: that's why I didn't get any carrots this year! Yay, I learned something :)

01:02:05 Marianne Barrentine - 4: is there a table somewhere on how long different seeds are viable?

01:03:28 Garrett Waters: johnny's has info on their website on seed viability. I imagine other seed companies do as well.

01:03:46 Hope Hochhalter -4: I've been using The Greenhouse Mega Store because Johnny's is considerably more expensive especially the shipping

01:04:00 Marianne Barrentine - 4: also, whats a good "recipe to make your own potting soil mix?

01:04:04 Garrett Waters: like Brad said, most seed companies have good customer service. I would encourage calling if you can't find info online

01:04:30 Michelle Morey - 2: What is the best way to harden off seedling starts?

01:04:52 Hope Hochhalter -4: I would pay for a template of your spreadsheets!

01:06:10 Garrett Waters: we start our seeds in the greenhouse, which is kept at a specific temperature range. we harden them off in our hoophouse, which has a wider temperature range. in the past, i have hardened off crops by bringing outside during the daytime (and bringing back inside at night) for a week before transplanting. this acclimates them to wind, rain, etc

01:06:27 Chandra Llewellyn-4: yeah amazing spreadsheet

01:06:42 Michelle Morey - 2: Thank you

01:07:01 Aba Kiser - 1: tinyurl.com/cultivatingssuccessform

01:07:23 Aba Kiser - 1: PLEASE RE-NAME YOURSELF WITH YOUR BREAKOUT ROOM NUMBER
(Example: Aba Kiser - 1)

•

BREAKOUT 1: Skagit, San Juan and Statewide Spanish Cohort
BREAKOUT 2: Kitsap, Jefferson, Clallam
BREAKOUT 3: Mason, Grays Harbor
BREAKOUT 4: Okanogan, Colville Reservation, Kalispel Reservation, Spokane
BREAKOUT 5: Wahkiakum, Skamania, Klickitat
(Example: Aba Kiser - 1)

•

NOTE: Clark has their own separate breakout room zoom link which you should already have, if not, please email terry.koper@wsu.edu.

01:10:33 Russ Milham - 4: Bear facility?!

01:10:35 Jodie Kercheval-1: What is your source for potting mix?

01:10:56 Matt Taylor-5: Recommendations for sterilizing homemade potting soil?

01:11:36 Matt Taylor-5: What software did she use to make the map?

01:11:50 Nicole Witham - 1: This is a great example of a farm map visual!

01:11:52 Chandra Llewellyn-4: how do define low versus high density orchards

01:12:14 Jodie Kercheval-1: They used Google Earth for the base of the farm map

01:12:18 Garrett Waters: high density is planted close together (tighter spacing). low density is planted further apart

01:12:51 Chandra Llewellyn-4: yes what is the spacing?

01:12:59 Chandra Llewellyn-4: thank you

01:13:19 Garrett Waters: i'll ask Brad at the end of the slide. can't remember off the top of my head

01:13:37 Karen Briggs Clark: how do you manage weeds?

01:15:49 Benjamin Sanders 3: Any sources in western WA for used poly for hoop houses?

01:15:55 Patricia Campbell2: how much is a decent size hoop house

01:16:39 Justice Millard-Enga-1: Do you have any animals on the farm?

01:17:05 Kaisha H. (she/her) 1: Do you graze/move livestock through your orchard

01:17:08 Russ Milham - 4: <https://goo.gl/maps/M7Ks74dCGEfjLEsY7>

01:17:11 Madison & Julie Hamblin -1: How profitable are you with a farm this size? If you don't mind my asking

01:17:17 Nicole Witham - 1: Karen did you catch the weed management class last week? Check out the materials and recording here: <https://foodsystems.wsu.edu/2020/10/05/week-5-integrated-pest-weed-management/>

01:17:40 Russ Milham - 4: I did ours with Google Maps and PowerPoint. :)

01:17:46 Nicole Witham - 1: Even just tracing paper over a google earth print out!

01:17:47 Kaisha H. (she/her) 1: Screen shot you site on google maps, paste it in paint.

01:18:01 Michelle Morey - 2: What is the difference in the greenhouse and the hoop houses?

01:18:55 Kaisha H. (she/her) 1: Click on the everyone in chat

01:20:40 Cecilia Hardwick - Clark: I was just going to ask the same question Michelle!

01:20:54 Laurie Woicik - 4: Re: cover crop, you plant peas and what was the 2nd one?

01:21:03 Whitney Jacques - 4: Triticale

01:21:06 Tracy Morgan: How many people or 'man' hours does this take?

01:21:17 Laurie Woicik - 4: thanks, whitney

01:21:55 Garrett Waters: we use the term "greenhouse" to define our climate controlled space with heaters/fans/all the bells and whistles where we start our seeds. we use the term "hoop house" when talking about our low tech spaces where we have basic steel framework and large clear plastic sheet.

01:22:25 Garrett Waters: the hoop house will keep our crops warmer than outside temps, but we can't control the temp like we do in the greehouse

01:22:26 Michelle Morey - 2: Thank you

01:22:33 Garrett Waters: other growers might define these differently

01:23:26 Laura Llewellyn - 2: This is a great, simple hoop house design.

01:23:29 Laura Llewellyn - 2: <https://pubs.extension.wsu.edu/portable-field-hoophouse>

01:24:43 Nicole Witham - 1: Here's the WSU Ag Weather Net Site: <http://www.weather.wsu.edu>

01:24:59 Nicole Witham - 1: You can check weather stations in

areas all throughout WA

01:25:10 Aba Kiser - 1: PLEASE RE-NAME YOURSELF WITH YOUR BREAKOUT ROOM NUMBER

(Example: Aba Kiser - 1)

.

BREAKOUT 1: Skagit, San Juan and Statewide Spanish Cohort

BREAKOUT 2: Kitsap, Jefferson, Clallam

BREAKOUT 3: Mason, Grays Harbor

BREAKOUT 4: Okanogan, Colville Reservation, Kalispel Reservation, Spokane

BREAKOUT 5: Wahkiakum, Skamania, Klickitat

(Example: Aba Kiser - 1)

.

NOTE: Clark has their own separate breakout room zoom link which you should already have, if not, please email terry.koper@wsu.edu.

01:26:52 Rose & Bob Reif- Clark County: what's the poly twine for?

01:27:04 Garrett Waters: twining tomatoes and cucumbers

01:27:13 Lori Lee Saille - #1: Twinning toms or cukes

01:27:16 Jodie Kercheval-1: Do you weight down the row covers with stones, or bury the edges?

01:27:23 Lori Lee Saille - #1: Twining

01:27:32 Space Twins Provisions-2: do you make your hoops for low tunnels or buy them pre-fab?

01:29:48 Garrett Waters: the smaller hoops we cut ourselves. the larger ones in the picture on the right (the ones we use for kale) we purchased

01:30:19 Laura Llewellyn - 2: That link I posted above is PVC and rebar. Cheapest hoop house design I know of. Works great here, if you take off the plastic in the winter.

01:30:38 Space Twins Provisions-2: sweet thank you

01:31:09 Whitney Jacques - 4: PVC reacts chemically with the plastic used on the hoop house and will degrade over time. Just something to be mindful of.

01:31:30 Space Twins Provisions-2: ohh good to know

01:31:41 Garrett Waters: thanks, Whitney. didn't know that.

01:32:27 Cecilia Hardwick - Clark: I put ladybugs in my garden this year and they took care of the flea beetles.

01:32:32 Benjamin Sanders 3: Small hoops are also easy to bend out of 1/2" electrical metallic conduit.

01:32:46 Laurie Woicik - 4: do you do your own soil testing or where do you send yours too?

01:32:55 Garrett Waters: definitely agree, Benjamin.

01:33:32 Garrett Waters: we are fortunate that we are part of a University so we give ours to the soil scientist there.

01:33:34 Laurie Woicik - 4: do you keep your own bees?

01:33:46 Hope Hochhalter -4: Benjamin, last time I priced conduit it was \$1 per foot. pretty pricey. do you have a resources

01:33:50 Benjamin Sanders 3: You can either bend the conduit by hand or make a template on the ground out of stakes if you're having trouble with kinking the EMT

01:34:11 Laurie Woicik - 4: thanks, garrett.
01:34:15 Whitney Jacques - 4: Lady bugs don't feed on flea beetles.
01:34:20 Benjamin Sanders 3: Hope, I can only suggest trying to call local electrical contracting companies. Sometimes they'll have damaged conduit they can sell for cheaper.
01:35:42 Aaron Brown 3: I have piles of used/damaged conduit in a recycling bin at work I might be able to make available in seattle. Will have to check on that. PM me if you want
01:35:44 Nicole Witham - 1: Chris Benedict gave them some good stuff two weeks ago!
01:36:18 Matt Taylor-5: Are breeders just using selective techniques, or are you referring to GMO's as well?
01:36:25 Benjamin Sanders 3: Also try contacting electrical supply houses for damaged conduit.j
01:37:58 Mike Devany - 4: What is the trade name for that paper?
01:38:01 Laurie Woicik - 4: LOVE the paper mulch instead of plastic!
01:38:10 John Spencer: what the product name for that paper mulch?
01:38:41 Garrett Waters: weed guard
01:39:19 Shellie Ann - 3: Does Weed Guard meet the USDA organic standards?
01:39:25 Garrett Waters: yes
01:39:33 Nicole Witham - 1: There are "biodegradable" mulches...
01:40:10 Aba Kiser - 1: PLEASE RE-NAME YOURSELF WITH YOUR BREAKOUT ROOM NUMBER

NOTE: Clark has their own separate breakout room zoom link which you should already have, if not, please email terry.koper@wsu.edu.
01:41:56 Colleen Leskinen: Colleen Leskinen- 4
01:43:42 Garrett Waters: Richard Wiswall "The Organic Farmer's Business Handbook"
01:44:11 Garrett Waters: it walks you through "enterprise budgets" so you can determine how much you are making/losing on each specific crop you grow
01:44:32 Michelle Schmittler 2: What is done with the culled produce?
01:44:47 Matt Taylor-5: What is the needed column?
01:44:47 Garrett Waters: we either donate it to Food Not Bombs or eat it
01:44:49 Vaughn Hochhalter - 4: The link for <http://www.ipmnet.org/>

Pocket_Guide_of_Natural_Enemies.pdf appears to be a dead link.
01:47:05 Nicole Witham - 1: Here's the IPM pocket guide:
<https://catalog.extension.oregonstate.edu/ec1613>
01:47:08 Nicole Witham - 1: I'll update
01:47:28 Vaughn Hochhalter - 4: Thank you!
01:47:41 Matt Taylor-5: Is this the sales record for commercial
buyers?
01:48:32 Kate Mikulak - 1: Labs Serving Agriculture in the
Pacific Northwest..for soil testing and more: [http://](http://analyticallabs.puyallup.wsu.edu/analyticallabs/instructions)
analyticallabs.puyallup.wsu.edu/analyticallabs/instructions
<http://analyticallabs.puyallup.wsu.edu/analyticallabs/services>
01:48:54 Garrett Waters: we need to keep the sales record to show that
we are only selling what we are harvesting (USDA will check on that).
01:49:00 Cecilia McGowan - 4: Thank you Brad and Garrett - this
was a terrific presentation!
01:49:12 Cecilia Hardwick - Clark: Lots of great info, Thanks guys!
01:49:14 Chandra Llewellyn-4: fantastic
01:49:15 Tracy Morgan-4: Super!!
01:49:19 Justice Millard-Enga-1: Thank you both very much!
01:49:19 Chandra Llewellyn-4: thank you
01:49:25 Laurie Woicik - 4: Thanks to you both!
01:49:26 Wayne Barrentine - 4: Thanks Brad and Garret!
01:49:30 Brad Waterman 5: thank you!
01:49:32 Russ Milham - 4: Thanks!
01:49:38 Colleen Leskinen - 4: Thank you I learned alot
01:49:39 Karen Briggs Clark: thank you! really good info!
01:49:40 Jason Maine-4: thanks guys great job!
01:49:43 Emily Whittier 5: Thank you!
01:49:47 Andrew Lueck - 4: Thank you!
01:49:48 Marianne Barrentine - 4: Thanks!!!
01:49:48 Nik Von Aspern - 4: very helpful! so much great info.
01:49:50 Mark E - 4: Thanks Brad and Garret!

01:49:55 Clare & Pete Krawitz - 2: Really enjoyed that, thanks both!
01:49:56 John Latimer - 1: Great info - thank you!!
01:49:58 John Spencer: Excellent Presentation!
01:49:59 Hannah Hoffmeyer - 1: Thank you!
01:50:01 Garry & Kathy Fruth - Clark: Thanks Brad and Garret!
Great information!!
01:50:02 Joshua E - 4: Thank you Brad and Garrett!!!
01:50:04 Piper McCullough-1: thank you!
01:50:04 Ronda Beaudry 5: great info...thanks!
01:50:06 Michelle Morey - 2: Thank you!
01:50:30 Jeff Kissler - 4: Great presentation, thanks!
01:50:50 Angie H 2: Thank you!
01:51:14 Carrie Backman 5: Thank you! Very informative
presentation
01:51:16 Nicole Witham - 1: Facebook Cultivating Success Group:
<https://www.facebook.com/groups/WSUCultivatingSuccess>
01:52:19 Mike Ewanciw: Mike Ewanciw - 1

01:52:29 Lori Cagle: lori cagle5
01:52:39 Ryan Brush: Thank you. Sorry I need to drop off.
01:52:53 Kate Smith-1: Thanks Ryan!
01:53:29 Lori Cagle: I'm still here. I need room 5 lori cagle
01:54:01 chris walden#4: me
01:54:07 Lori Cagle: lori cagle 5
02:07:09 Jodie Kercheval-1: I used potatoes from my garden and a farm raised organic turkey from a friend's farm.
02:07:12 Hannah Hoffmeyer - 1: Pumpkin pie with homegrown pumpkins!
02:07:14 Mike Ewanciw: don't know....someone cooked for me & I never asked....sorry
02:07:19 Lori Lee Saille - #1: steamed chard, broccoli, and kale!
02:07:21 Christine Langley - 1: roasted brussel sprouts are a must!
02:07:21 John Latimer - 1: Bakery San Juan for an incredible pumpkin pie!!
02:07:44 Justice Millard-Enga-1: We used rosemary from our garden on a local organic turkey.
02:07:46 John Kulseth - 1: No local food that I know of - sad
02:07:54 Brendan & Gabrielle NorthStarFarm: Pumpkin, potatoes, kale, and wheat from our farm
02:08:15 Christine Langley - 1: fennel and celery with apples for best stuffing
02:08:16 Piper McCullough-1: I made butternut and delicata soup, with squash from the Bellingham Farmer's Market! I also made my friend a birthday cake using zucchini that I grew in my garden, a few days before thxgvg :)
02:08:17 Kaisha H. (she/her) 1: apples, pears, geese,
02:08:37 Justice Millard-Enga-1: black currant sauce in place of cranberry.....?
02:08:49 Sunnie Sawyer-1: Thanksgiving CSA
02:09:14 Sunnie Sawyer-1: Nice!
02:09:34 Kaisha H. (she/her) 1: Our home thanksgiving was local turkey, local squash, local greens, and fresh crab from our native family great holiday.
02:09:37 Sunnie Sawyer-1: Holiday CSA
02:11:33 Sunnie Sawyer-1: Good to hear.
02:12:01 Lori Lee Saille - #1: contact info for Christine, please.
02:12:03 Kaisha H. (she/her) 1: How do you choose your crops
02:12:16 Kaisha H. (she/her) 1: Why do you choose the ones you do?
02:13:22 Justice Millard-Enga-1: Do you ever mix crops together to help minimize pests, weeds etc.?
02:14:37 Mike Ewanciw: Give us an example of something that you really liked, but that was not as favored by the general public. What did you do to promote these items? Was it successful? (I try to sell people on hardy kiwis...guinea fowl..and other relatively unknown products that I love)
02:15:27 Sunnie Sawyer-1: Interesting.
02:15:58 Kaisha H. (she/her) 1: Mike Ewanciw, as a processor, guinea fowl our my LEAST favorite. As a consumer, they are delicious
02:16:07 Sunnie Sawyer-1: Food Promoter

02:16:41 Mike Ewanciw: Good point. What makes Guinea Fowl so difficult to process?

02:17:30 coco faria-1: can you tell us more about the moveable greenhouses? Have they been successful? Would you recommend?

02:18:36 Kaisha H. (she/her) 1: They fly in your face, smell terrible, and are NOISEY as heck in a small enclosed slaughter room.

02:19:16 Mark Allen - 1: Could you talk a little about how you got started and some maybe some lessons learned?

02:19:48 Mike Ewanciw: Kaisha - aha...I could see that.

02:22:38 Kaisha H. (she/her) 1: Do you support yourself on your farm income?

02:23:50 Justice Millard-Enga-1: Do you ever have problems with wind destroying your greenhouse or hoop house?

02:23:57 John Latimer - 1: Is your propagation house and green house separate? Could they possibly both be in one larger green house?

02:24:10 Kaisha H. (she/her) 1: How tdo you manage wind with your high tunnels

02:26:00 Brendan & Gabrielle NorthStarFarm: ...with our 50mph gusts!

02:27:17 Mike Ewanciw: Do you incorporate any livestock or poultry into your operation?

02:27:49 Kaisha H. (she/her) 1: We are on city water, I am wondering about the cost of digging an agricultural well, creating a pond, rain catchment, or just using city water. The idea of a pond and pump is great.

02:28:03 Kaisha H. (she/her) 1: How do you decide on csa or crop pricing

02:28:45 Kate Mikulak - 1: <https://sjifh.com/>

02:29:15 Kate Mikulak - 1: San Juan Islands Food Hub ^^

02:29:31 Kate Smith-1: <https://pugetsoundfoodhub.com/> Puget Sound Food Hub

02:29:40 Kaisha H. (she/her) 1: Tell us about your post harvest station?

02:31:33 Kaisha H. (she/her) 1: time is money

02:31:49 Kaisha H. (she/her) 1: How do you stay up to day=te on consumer wants

02:33:05 Mike Ewanciw: Have you attempted any fruit crops?

02:33:40 Kaisha H. (she/her) 1: What advice would you give people rady to launch

02:33:44 Kaisha H. (she/her) 1: ready?

02:33:53 coco faria-1: What's your favorite tool?

02:35:45 Hannah Hoffmeyer - 1: Thank you!

02:35:45 Kate Smith-1: Speaking of the increase of radicchio popularity <https://www.chicoryweek.com/>

02:35:54 John Latimer - 1: Thank you!

02:35:58 Justice Millard-Enga-1: Thank you very much

02:35:59 Brendan & Gabrielle NorthStarFarm: Thanks Christine!

02:36:10 Sunnie Sawyer-1: Your amazing! Thank-You

02:36:45 Kate Smith-1: <https://drive.google.com/drive/folders/>

1mCD2hTVrWqH0gRR1RvbhsW_Src0x7eJx?usp=sharing

02:36:50 Christine Langley - 1: great to see you are here northstar!

02:37:02 Kaisha H. (she/her) 1: thankyou christine

02:38:37 Kate Mikulak - 1: Culinary Breeding Network recently focused a whole day of sessions on radicchio : <https://www.culinarybreedingnetwork.com/events/2020/10/24/rad-tv>

02:39:12 Lura Smith 3: Please send me to chat room 3 Grays Harbor. Thank you

02:44:36 Kaisha H. (she/her) 1: no tell me more

02:44:40 Brendan & Gabrielle NorthStarFarm: Yes!

02:45:59 Brendan & Gabrielle NorthStarFarm: Ours arrived - we haven't put it up yet

02:46:16 Mike Ewanciw: I worked at a non-profit organization that got a high tunnel funded by NRCS....good program!

02:50:55 Piper McCullough-1: would mushrooms be mixed veg?

02:50:59 Allison Huffman-1: room 9

02:51:07 Sunnie Sawyer-1: I would like Room 8

02:51:08 Kate Smith-1: <https://www.farmers.gov/cfap>
