

## **Standard Operating Procedures** **for Particularly Hazardous Substances**

Standard Operating Procedures (SOPs) are required for the use of particularly hazardous substances (including chemicals) that are used in the laboratory. Particularly hazardous substances include hazardous chemicals, nanomaterials, explosive materials, lasers, biological, radioactive materials and other substances as defined by WAC 296-828. Contact EH&S at 335-3041 for assistance.

Laboratory Safety Manual section IV.C provides direction on creating and documenting SOPs. Copies of the SOPs for these materials should be kept with the Laboratory CHP.

### **Describe where SOPs are stored.**

There is a copy printed out and kept in the storeroom SOP binder, and an electronic copy is kept on a storeroom office computer available to storeroom personnel.

### **Person responsible for developing and maintaining SOPs for this laboratory (Name and title)**
