SATURDAY, DECEMBER 9, 2017  
BEASLEY COLISEUM, WASHINGTON STATE UNIVERSITY  
PULLMAN, WASHINGTON

### COMMENCEMENT MISSION STATEMENT

Commencement at Washington State University represents the culmination of a student's academic achievement. It is a time for celebration and reflection for students, families, faculty, and staff. It brings together the campus community to share the joy of the accomplished goals of our students.

The commencement ceremony at Washington State University serves a dual purpose: to mark a point of achievement, thus completing a chapter in the lives of students and those who support them, and to encourage continued pursuit of learning, personal fulfillment, and engagement with local and worldwide communities.

## A LIFE-CHANGING MOMENT

Congratulations on reaching this milestone day! I know you've worked hard for this moment, and now I hope you'll take time to celebrate and savor your accomplishments.

Earning a college degree requires intellectual curiosity, effort, and self-sacrifice—traits that, beyond your academic studies, will open doors to now unimagined opportunities as you move on to the next chapter in your life.

Attaining success requires teamwork as well. You and your immediate team—your family, your friends, your professors—are immensely proud, as am I, of your achievements.

After you celebrate today's festivities, my fervent hope is that you'll cherish your moments at Washington State and resolve to stay connected to the Cougar family. As you well know by now, once a Cougar, always a Cougar. You can count on Cougs to support you throughout your professional and personal journey.

I'm delighted to have the opportunity to share this day with you. I wish you all the best in your future endeavors.

Go Cougs!

**JUDI McDONALD**  
PROFESSOR OF MATHEMATICS  
CHAIR OF THE WSU FACULTY SENATE

Dear Graduates,

On behalf of the faculty at Washington State University, I want to congratulate you on attaining your degree. Beyond any multiple choice answer or numerical grade point, you have proven yourselves as thinkers, seekers, and creators of the very essence of innovation and knowledge. We are privileged to have had you in our classrooms, labs, and studios. Surpassing the strenuousness of student life and learning how to learn has adapted you into intellectuals who can reach higher than you thought possible and who can realize the unimaginable. Working with talented, passionate, and tenacious individuals such as yourselves has been an honor. As you step into the world of new possibilities, leap with courageousness and explore with curiosity.

The theory of six degrees of separation suggests that there are at most six social network steps between any two people on the planet. The distance between you and your dreams is not as far as it may seem and helpful Cougs will lend a hand along the way. Dream big and reach far, but never hesitate to take advantage of the best opportunities that present themselves at the moment.

The theory of three degrees of influence suggests that not only are people influenced by their peers, but also by the people who influence their peers, and so on, with the strongest influences coming from up to three steps away. Take with you the hand-picked best of the new ideas and attitudes you have been exposed to on our campuses, for it is the intangible that is your greatest asset in the years to come. As you emerge into the world as WSU alumni, represent us with a fusion of grace and passion. Look out for your fellow Cougs, as well as the people around you. Remember that your influence goes well beyond that which is immediately before your eyes.

My first dean advised “Do good work—the rest will follow,” and I have frequently used this advice when deciding how to spend my time and energy. Even though you are graduating, remember to keep the kindle of curiosity flaming. Find and follow that which entices you to passion. Don’t be afraid to leave your comfort zone. When blunders block your path, seek ways to morph your ideas into new and unexpected solutions, or change paths. The way ahead has many opportunities and challenges.

Attaining your degree is a special accomplishment that is yours for life. Use it well.

Sincerely,

Judi McDonald  
Chair of the Washington State University Senate  
Professor of Mathematics

**BRIGITTA JOZEFOWSKI**  
CHAIR, ADMINISTRATIVE  
PROFESSIONAL ADVISORY COUNCIL

Dear WSU Graduates,

It is with great honor that I write to you this day, a day that will be forever in your heart. Today, you join an elite group of individuals who will forever remember the rolling hills of the Palouse, the slow crawl of the combines, the endless cheering of our athletes, and who will forge ahead and shape this world.

To be a Cougar isn't just a word, it isn't just a college student, it is a family. A family of Cougs that welcome you into this new and exciting journey. Congratulations on your accomplishments these past years that led you to your commencement day. The Administrative Professional staff congratulate you on your commencement. The driving motivation in our work – and one that gives all of us great satisfaction – is your success. You have earned this moment, the effort you put into your studies, the late hours studying and finishing projects, the life-long friends you have made and the faculty that have inspired you. We are blessed and honored to have helped you and your fellow Cougars achieve your success.

It is customary to leave a graduate with a quote to ponder. Our 66th Secretary of State, Dr. Condoleezza Rice, stated, "Remain optimistic and always try to serve others as well as the goals for freedom, peace, and justice". As you leave here today, remember Dr. Rice's words as you embrace your new beginning. Go forth as a Cougar ready to serve others and embrace your responsibility to enact change and transform the world for the better. We look forward to great things from you.

On behalf of the Administrative Professional Advisory Council, I congratulate your accomplishments!

Go Cougs!

### **To the Graduates of the Class of 2017,**

On behalf of your student governments, the Associated Students of Washington State University, the Associated Students of Washington State University Global Campus, and the Graduate and Professional Student Association, congratulations on reaching this amazing milestone and graduating from Washington State University!

We would like to take a moment and applaud you on reaching this remarkable accomplishment. You have worked long and hard to be sitting where you are today, be proud of yourself! All of the long days and seemingly endless nights have culminated in this moment where you can look back and celebrate every step of your journey. Commencement marks one of the most joyous landmarks in your academic path; you should reflect on this moment.

From here, we all go different ways. While you may feel you are being ejected into a world of uncertainty, we are confident that your time here at Washington State University has equipped you to navigate the challenges you will encounter in the months and years that lie ahead. Whether you realize it or not, your time here has developed within you the resilient characteristics of a WSU Cougar. Be confident in that.

As you move forward to your next endeavors, remember Washington State University will always be your home. Remain engaged and become an active alumnus the moment you leave campus. Stay connected with the friends you made and faculty who impacted your experience at WSU.

Commencement represents the completion of one chapter and the beginning of a new one just as promising as the last. Once again, congratulations on your academic achievements; ASWSU and GPSA wish you the best of luck moving forward.

## COMMENCEMENT 2017

Washington State University cordially welcomes all who have come to the Pullman campus for the 17th annual fall Commencement to honor the graduating class of 2017. To class members, the Class of 2017, the University would like to acknowledge your accomplishments and congratulate you all.

Commencement is the special occasion where students are recognized for their academic achievements. These achievements are reflected in their transcript, an official document certifying the completion of academic requirements. The culmination of a student's success at WSU comes with the arrival of their diploma, which is mailed after the ceremony.

The first WSU Commencement ceremony, held on June 24, 1897, recognized a total of eight students. Today we honor more than 800 students from varying states, U.S. territories, and countries.

WSU enrolls 30,614 students statewide. This includes 17,646 undergraduates and 2,640 graduate and professional students learning at the Pullman campus, and 7,631 undergraduates and 2,697 graduate and professional students at the other campus locations of Everett, Spokane, Tri-Cities, Vancouver, and the Global Campus (online). WSU is also privileged to support 10,340 first generation college students in their academic journey. Washington State University is proud of a growing family of Cougar alumni and is honored to celebrate their achievements.

### DISCLAIMER

The names of the degree recipients are announced in random order as they approach the readers. Students will be viewed on big screens as their names are read.

Names in the Fall 2017 Commencement program include August 2017 degree candidates and December 2017 degree candidates who met the application deadline.

Appearance of a name in this program is presumptive evidence of graduation and graduation honors, but it must not in any sense be regarded as conclusive. Notation on the university transcript remains the official testimony of degree possession.

**The program is not a listing of those attending the ceremony.**

## ACADEMIC REGALIA

Academic regalia arose through evolution and modification of the robes worn by medieval students, who were usually clerics in the cathedral schools and monasteries established by the church. As early as 1321, a medieval statute required that all doctors, licentiates, and bachelors wear academic gowns and hoods. Gowns were necessary for warmth in the unheated medieval buildings, and hoods may have been designed to cover tonsured heads. Today, immediately after receiving a charter, new institutions adopt a distinctive design for academic attire expressive of their individuality.

On May 26, 1895, a group of institutional representatives met at Columbia University to establish a uniform code for academic regalia in this country.

The approved academic attire for all graduates is composed of a cap and gown. For master's and doctoral graduates, a hood is included. The basic article of attire is the gown, usually black in color, and similar in design for all degrees with the sleeves being the principal indicator of degree level. Gowns for those graduating with a bachelor's degree have pointed sleeves; the sleeves on master's gowns arc away at the front; and doctoral gowns have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed while doctoral gowns feature distinctive velvet facing down the front and three velvet bars on each sleeve.

The hood has become the colorful standard-bearer of academic symbolism. By examining the hood, an informed observer should be able to identify the

degree level, the academic field of study in which the degree was earned, and the institution that conferred the degree. The hood is made of the same material as the gown. Hood length varies according to degree: bachelor's—three feet, master's—three and a half feet, and doctor's—four feet in length and has panels at the sides. The color or colors of the hood lining indicate the institution that conferred the degree (crimson and gray for WSU). The hood is trimmed or edged in a border of velvet either two, three, or five inches in width for the respective degrees. The border color represents the faculty or field of study in which the degree was awarded. At WSU, bachelor's degree candidates do not wear hoods.

The approved cap of the academic costume is the mortarboard or Oxford cap—a stiff board nine inches square, placed on a soft cap and joined in a pointed design in front and back. The color is always that of the gown and uniformly black for the four-year degrees. The use of velvet has been reserved for the cap of the doctoral degree. A silk cord with a tassel made of many threads is attached to a button in the center of the board.

A distinctive commencement rental gown for students earning Ph.D. and Ed.D. degrees debuted in spring 2012. The gown is crimson with gunmetal-gray velvet accents and a matching velvet tam. WSU is the only university with a custom rental gown. The purchased version of the custom gown is designed with a split hood, two silver WSU shield medallions holding the hood in place, two WSU medallion cufflinks on each sleeve, and other embellishments.

## ACADEMIC REGALIA

The committee of the American Council on Education on its “Academic Costume Code” states the following:

*For all academic purposes—including trimming of doctoral gowns, edging of hoods, and tassels of caps—the colors associated with the different subjects are as follows:*

## THE UNIVERSITY MACE

The University Mace, a traditional symbol of authority, will lead the processional today. The mace is carried by the chair of the Faculty Senate with an honor guard consisting of the presidents of the undergraduate and graduate and professional student associations. Judi McDonald carries it today, accompanied by Jordan Frost, president of the Associated Students of WSU, and Shane Reynolds, president of the Graduate and Professional Student Association of WSU.

Created in 1985, the two-foot-long, nine-pound scepter is cast in silver and bronze and features a globe atop a laurel branch, wrapped in a silver ribbon and inscribed "Washington State University." According to designer and craftsman Tim Doebler of WSU's Department of Fine Arts, "the globe represents the universality of education and the quest for knowledge. Laurel crowns were presented to academicians by the ancient Greeks."

The anvil is a symbol of forging and molding education, rather than forcing it upon students.
