ONE HUNDRED TWENTIETH SPRING COMMENCEMENT

SATURDAY, MAY 7, 2016

BEASLEY COLISEUM, WASHINGTON STATE UNIVERSITY
PULLMAN, WASHINGTON

COMMENCEMENT MISSION STATEMENT

Commencement at Washington State University represents the culmination of a student's academic achievement. It is a time for celebration and reflection for students, families, faculty, and staff. It brings together the campus community to share the joy of the accomplished goals of our students.

The commencement ceremony at Washington State University serves a dual purpose: to mark a point of achievement, thus completing a chapter in the lives of students and those who support them, and to encourage continued pursuit of learning, personal fulfillment, and engagement with local and worldwide communities.

Congratulations Graduates!

DANIEL J. BERNARDO
INTERIM PRESIDENT,
WASHINGTON STATE UNIVERSITY

BEST WISHES FROM THE PRESIDENT

Congratulations! The milestone you celebrate today is impressive and important.

Every student that enters Washington State University has the opportunity to succeed. It is whether and how you seize that opportunity—in the classroom, in the laboratory, or in the community—that determines your path. Your hard work, curiosity, and persistence have brought you to this day. You, your family, and your friends should be immensely proud of this achievement, and we share in that pride.

With your graduation, you join a truly worldwide network of WSU alumni. I encourage you to hold onto the relationships you built with fellow students, faculty, and staff members during your time with us. You will always be a member of the loyal Cougar family, and the connections you keep will help to support you throughout your professional career.

Enjoy today. It is a special moment in your life, but also in the life of our great institution. I wish you all the very best in your future endeavors.

Go Cougs!

Daniel J. Bernardo, Ph.D.
Interim President
Washington State University

A TRIBUTE TO OUR INTERIM PRESIDENT, DANIEL J. BERNARDO

As we celebrate the outstanding accomplishments of Washington State University students today, it is only appropriate that we also celebrate the herculean achievements of Dan Bernardo during the past 11 months.

Dan accepted the University's presidential duties on an interim basis last June following the untimely death of President Elson S. Floyd. Despite the extremely challenging circumstances, Dan has demonstrated—without fail—exceptional leadership, grace, and vision in his stewardship of the University.

During this academic year, Dan ensured that the University made significant progress toward our vision of becoming one of the nation's leading land-grant institutions. Among the most notable accomplishments of his tenure:

- Advancing accreditation efforts for the Elson S. Floyd College of Medicine
- Identifying the Grand Challenges, our cross-disciplinary research approach to solving some of the world's most pressing problems
- Ensuring that the Pullman campus remained true to its 126-year-old mission of transforming lives by offering education and opportunity, and by driving prosperity for all

American scholar Warren Bennis famously said, "Leadership is the capacity to translate vision into reality." Dan, you have traveled above and beyond to move our vision into reality. On behalf of the entire Board of Regents, thank you from the bottom of our hearts.

RICH ZACK
PROFESSOR
CHAIR, WSU FACULTY SENATE

WOW—Congratulations! Did it go fast? For all of you and those who have supported you, this is a very special day. For some, it is an impossibility that has come true. Perhaps you are the first from your family to attend and graduate from college. For you and your families, the hard work has paid off and you should all be so proud. Some have lacked the resources and have worked, attended classes, and worked more. Some of you (us) were not the best students in high school and took this opportunity to prove yourselves, to show that you could make it and do very well. Everyone is different and everyone has a story. The bottom line is that you have accomplished something very special and you deserve a day or two to celebrate and relax.

Now what? Now you are going to join the real world—well, actually, most of you have been a part of the real world for a while. But now that world is going to get a lot larger and there is so much enjoyment ahead of you. I hope that you found something, or many things, that excite you. I was fortunate enough to find something that I did not even know existed before I went to college and have been very lucky to be able to pursue this love. That is my hope for you—that you have found something that excites you every day (or at least the great majority of days). Something that makes you want to get up in the morning and sleep well at night.

And then, there are the really important things: your relationships. Your current families and your future families should always be the most important cares in your lives. It is odd, but these are sometimes the individuals that we neglect. Remember how important they are to you and tell them often.

You have a very wonderful gift—you are just beginning and the future is yet to be written. But let me tell you that time goes fast and the older you get, the faster time goes. In most great novels, the first line is often the most memorable. So don't relax too long—get started. Take and give back. Give and ask for advice. Be kind and gentle but also strong in your convictions. But most of all, have fun and help those around you to do the same.

Have a great ride and Go Cougs!

LARRY CLARK
CHAIR, ADMINISTRATIVE
PROFESSIONAL ADVISORY COUNCIL

Dear WSU Graduates:

Congratulations on your commencement from the administrative professional staff of Washington State University!

As professional staff at WSU, the driving motivation in our work—and one that gives all of us great satisfaction—is your success. We know the effort you put into your academics, the late hours of studying, the tests, and the projects. You also gained friends for life, met professors who inspired you, and earned a degree from a University that will carry you as far as you wish to go. We feel proud and honored to have helped you and your fellow Cougars achieve that success.

As you head into the world beyond WSU for a career or further education, it's customary to leave a graduate with a quote to ponder. I give you this thought from one of my favorite authors, David Foster Wallace: "I have come gradually to understand that the liberal arts cliché about teaching you how to think is actually shorthand for a much deeper, more serious idea: learning how to think really means learning how to exercise some control over how and what you think."

We look forward to great things from you. You will always be part of the Cougar Nation, and we wish you the best of luck in all your endeavors. Go Cougs!

ASWSU-GLOBAL
PRESIDENT

To the Graduates of the Class of 2016,

On behalf of your student governments, the Associated Students of Washington State University, the Associated Students of Washington State University Global Campus, and the Graduate and Professional Student Association, we congratulate each and every one of you for graduating from Washington State University. It has been an honor to serve as your advocates at such a distinguished institution.

You have grown so much as an individual during your time at Washington State University, and now you have the most powerful tool available: a degree. Accomplishing this feat deserves a pat on the back and nothing less than celebration. A degree from this esteemed institution comes with the responsibility to be a world class citizen in everything you do. During your time at WSU, you have developed as an individual, a leader, and a positive member of society. It is now your job to take everything you have experienced—the joys and challenges alike—and never stop learning from them. The power of learning from your experiences, just like the color Crimson, will never go out of style. WSU has fostered you, challenged you, and, most importantly, taught you what it means to be a member of the Cougar Nation.

Washington State University is more than a great institution; Washington State University is, and will forever be, your home. We hope that all of you retain that Cougar spirit and stay engaged with this community for the rest of your lives.

It has been a privilege to serve all of you soon-to-be Cougar alumni, and we wish you all the best of luck in all of your future endeavors. Once again, congratulations on earning your degree from Washington State University. As always, Go Cougs!

COMMENCEMENT 2016

Washington State University cordially welcomes all who have come to the Pullman campus for the one hundred twentieth annual Spring Commencement to honor the graduating class of 2016. To class members, the Class of 2016, the University would like to acknowledge your accomplishments and congratulate you all.

Commencement is the special occasion where students are recognized for their academic achievements. These achievements are reflected in their transcript, an official document certifying the completion of academic requirements. The culmination of a student's success at WSU comes with the arrival of their diploma, which is mailed after the ceremony.

The first WSU commencement ceremony, held on June 24, 1897, recognized a total of eight students. Today we honor more than 3,000 students from varying states, U.S. territories, and countries.

WSU enrolls 29,686 students statewide. This includes 20,095 undergraduates and 4,543 graduate and professional students learning at the Pullman, Spokane, and Global campuses. At the Everett, Tri-Cities, and Vancouver campuses, 5,048 undergraduate, graduate, and professional students are enrolled. WSU is also privileged to support 10,460 first-generation college students in their academic journey. Washington State University is proud of a growing family of Cougar alumni and is honored to celebrate their achievements.

The names of the degree recipients are called in random order as they approach the readers. Students will be viewed on big screens as their names are read.

Names in the Spring 2016 Commencement program include May 2016 graduate and undergraduate applicants and August 2016 undergraduates who applied by the May 2016 application deadline. The program is not a listing of those attending the ceremony.

Appearance of a name in this program is presumptive evidence of graduation and graduation honors, but it must not in any sense be regarded as conclusive. Notation on the University transcript remains the official testimony of degree possession.

THE UNIVERSITY MACE

The University Mace, a traditional symbol of authority, will lead the processional today. The mace is carried by the chair of the Faculty Senate with an honor guard consisting of the presidents of the undergraduate and graduate and professional student associations. Richard Zack carries it today, accompanied by Kyle Geiger, president of the Associated Students of WSU, and Melanie Thornton, president of the Graduate and Professional Student Association of WSU.

Created in 1985, the two-foot-long, nine-pound scepter is cast in silver and bronze and features a globe atop a laurel branch wrapped in a silver ribbon and inscribed with "Washington State University." According to designer and craftsman Tim Doebler of WSU's Department of Fine Arts, "the globe represents the universality of education and the quest for knowledge. Laurel crowns were presented to academicians by the ancient Greeks."

The anvil is a symbol of forging and molding education, rather than forcing it upon students.

PHOTOGRAPHY COVERAGE

Photography and video will be available through Image Studios & After Image Visual Services. Proofs will be mailed to each graduate's permanent address and will also be posted online at www.gradwsu.com. DVD video of the entire ceremony and individual digital video clips will also be available to order through the website or the mailed proofs. Phone: 509-332-0964, email: graduations@gmail.com, and mailing address: P.O. Box 8836 Moscow, Idaho 83843.

ACADEMIC REGALIA

Academic regalia arose through evolution and modification of the robes worn by medieval students, who were usually clerics in the cathedral schools and monasteries established by the church. As early as 1321, a medieval statute required that all doctors, licentiates, and bachelors wear academic gowns and hoods. Gowns were necessary for warmth in the unheated medieval buildings, and hoods may have been designed to cover tonsured heads. Today, immediately after receiving a charter, new institutions adopt a distinctive design for academic attire expressive of their individuality.

On May 26, 1895, a group of institutional representatives met at Columbia University to establish a uniform code for academic regalia in this country.

The approved academic attire for all graduates is composed of a cap and gown. For master's and doctoral graduates, a hood is included. The basic article of attire is the gown, usually black in color, and similar in design for all degrees with the sleeves being the principal indicator of degree level. Gowns for those graduating with a bachelor's degree have pointed sleeves; the sleeves on master's gowns arc away at the front; and doctoral gowns have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed while doctoral gowns feature distinctive velvet facing down the front and three velvet bars on each sleeve.

The hood has become the colorful standard-bearer of academic symbolism. By examining the hood, an informed observer should be able to identify the degree

level, the academic field of study in which the degree was earned, and the institution that conferred the degree. The hood is made of the same material as the gown. Hood length varies according to degree: bachelor's—three feet, master's—three and a half feet, and doctor's—four feet in length and has panels at the sides. The color or colors of the hood lining indicate the institution that conferred the degree (crimson and gray for WSU). The hood is trimmed or edged in a border of velvet either two, three, or five inches in width for the respective degrees. The border color represents the faculty or field of study in which the degree was awarded. At WSU, bachelor's degree candidates do not wear hoods.

The approved cap of the academic costume is the mortarboard or Oxford cap—a stiff board nine inches square, placed on a soft cap and joined in a pointed design in front and back. The color is always that of the gown and uniformly black for the four-year degrees. The use of velvet has been reserved for the cap of the doctoral degree. A silk cord with a tassel made of many threads is attached to a button in the center of the board.

A distinctive commencement rental gown for students earning Ph.D. and Ed.D. degrees debuted in spring 2012. The gown is crimson with gunmetal-gray velvet accents and a matching velvet tam. WSU is the only university with a custom rental gown. The purchased version of the custom gown is designed with a split hood, two silver WSU shield medallions holding the hood in place, two WSU medallion cuff links on each sleeve, and other embellishments.

ACADEMIC REGALIA

The committee of the American Council on Education on its “Academic Costume Code” states the following:

For all academic purposes—including trimming of doctor’s gowns, edging of hoods, and tassels of caps—the colors associated with the different subjects are as follows:

Agriculture: Maize	Forestry: Russet	Philosophy: Dark Blue
Arts, Letters, Humanities: White	Journalism: Crimson	Physical Education: Sage Green
Commerce, Accountancy, Business: Drab	Law: Purple	Public Administration, including Foreign Service: Peacock Blue
Dentistry: Lilac	Library Science: Lemon	Public Health: Salmon Pink
Economics: Copper	Medicine: Green	Science: Golden Yellow
Education: Light Blue	Music: Pink	Social Work: Citron
Engineering: Orange	Nursing: Apricot	Theology: Scarlet
Fine Arts including Architecture: Brown	Oratory (Speech): Silver Gray	Veterinary Medicine: Gray
	Pharmacy: Olive Green	

For more on academic regalia visit www.acenet.edu.

PRESIDENT’S CHAIN OF OFFICE

During commencement ceremonies and other special occasions, the president of Washington State University wears the President’s Chain of Office. The medallion features the WSU shield with Cougar head, and the links are engraved with the names and dates of service for each past WSU president, starting with George Lilley, who served from 1891 to 1892, and ending with the late Elson S. Floyd, who served from 2007 to 2015. Blank links allow engraving of names and service years for future presidents.

The Chain of Office was created at the request of V. Lane Rawlins, who became president of WSU on June 8, 2000. He wore it for the first time during his inauguration on March 28, 2001.

WASHINGTON STATE UNIVERSITY HIGHLIGHTS, 2013–2016

2013

The Brelsford WSU Visitor Center in downtown Pullman, near Reaney Park, was dedicated. The facility serves as the University's new "front door," providing a welcoming environment and information about WSU to its guests.

The \$96 million Veterinary Medical Research Science Building opened its doors. The facility houses state-of-the-art biomedical research laboratories and offices for the health science teaching and research programs.

Football fans welcomed the arrival of one of the few high-definition video display scoreboards in college football. Located at the east end of Martin Stadium, it measures 73 feet wide and 36 feet high—more than double the size of the previous board.

Three hundred students moved into the \$32.6 million Northside Residence Hall, the second new residence hall constructed on the Pullman campus since the early 1970s.

The Federal Aviation Administration selected WSU and the Massachusetts Institute of Technology (MIT) to colead the new Center of Excellence for Alternative Jet Fuels and the Environment. One of the center's aims is to foster a new industry focused on developing alternative jet fuels.

The Cougar family lost one of its most beloved leaders with the passing of Dr. Glenn Terrell, who served as WSU president from 1967 to 1985. He was 93.

2014

Diane Nash—Freedom Rider, sit-ins leader, and key architect of the 1960s civil rights movement—spoke on the Pullman campus in commemoration of Dr. Martin Luther King, Jr.'s birthday.

World-renowned poet, writer, commentator, activist, and educator Nikki Giovanni lectured on the Pullman campus. She has authored more than 30 books and is one of the most widely read American poets.

For the second year in a row, *U.S. News and World Report* ranked Washington State University among the top 10 best online graduate business programs for its MBA and Executive M.B.A. degrees.

Blended Learning, the first in a series of wines created by students in WSU's viticulture and enology program, was introduced. The University has partnered with the state's winemakers and grape growers to help Washington become the second-largest wine producing state in the country.

The first 23 students in the University's mechanical engineering program at WSU North Puget Sound at Everett received their diplomas in May. The program in Everett was launched as part of a state initiative to increase the number of engineering and computer science students and graduates.

A team of WSU student interns spent the summer working in communities devastated by the March mudslide along State Route 530. The internship program was designed to help the

communities of Darrington and Arlington regain their footing economically, environmentally, and socially.

The Daily Evergreen, the WSU student-produced newspaper, was named the best all-around campus newspaper in the Northwest at the annual regional conference of the Society of Professional Journalists.

Smithsonian Magazine presented Michael Skinner, a WSU professor of biological sciences, with an American Ingenuity Award for his pioneering work in the field of transgenerational epigenetics: the study of inherited genetic changes that can't be explained by traditional genetics.

A research team led by professors Su Ha and M. Grant Norton developed the first fuel cell that can directly convert fuels, such as jet fuel or gasoline, to electricity—providing a dramatically more energy-efficient way to create electric power for planes or cars.

The building that houses broadcast news facilities in the Edward R. Murrow College of Communication was dedicated to legendary sports broadcaster, journalist, and WSU alumnus Keith Jackson ('54).

The Board of Regents approved renaming two of the University's colleges to recognize alumni donors. The College of Business became the Carson College of Business, and the College of Engineering and Architecture became the Voiland

College of Engineering and Architecture. The names honor lifetime contributions that Scott and Linda Carson and Gene and Linda Voiland have made to the colleges, to the University, and to their respective industries.

The Board of Regents directed University leadership to pursue approval for an independently accredited medical school. The Washington State Legislature then voted to change a 1917 law limiting the delivery of medical education to the University of Washington, clearing the way for a WSU School of Medicine.

2015

Elson S. Floyd, Ph.D., the 10th president of Washington State University and a nationally respected voice for affordable, accessible higher education, died of complications from cancer at age 59. The WSU Board of Regents appointed Provost Daniel J. Bernardo to serve as interim president.

Washington Governor Jay Inslee signed into law a bill that gave WSU the authority to create its own medical school. The WSU Board of Regents honored the late President Floyd's leadership in establishing the school by officially naming it the Elson S. Floyd College of Medicine. Dr. John Tomkowiak was named as the college's inaugural dean.

The Campaign for Washington State University: Because the World Needs Big Ideas surpassed its \$1 billion goal six months ahead of schedule. Among the gifts were the six largest commitments in WSU history, along with commitments from more than 206,250 individual donors and industry partners.

The University celebrated the 125th anniversary of its 1890 founding. Marking the event were birthday-cake-laden events, a new website, celebratory advertisements that reached audiences across the state, and a fund drive that challenged supporters to give \$125,000 in one day to support WSU students.

Fall 2015 enrollment across all WSU campuses reached an all-time high of 29,686 students. For the fifth year in a row, at least 35 percent of the incoming freshman class identified as students of color.

Renowned scholar and social justice activist Angela Davis, a public face of the 1970s black power movement, spoke before a crowd of more than 1,000 on the Pullman campus.

The largest single gift in WSU Tri-Cities history—\$18 million from the Kadlec Regional Medical Center—will support the WSU Tri-Cities College of Nursing.

Top minds in the development of clean technologies moved into the new PACCAR Environmental Technology Building—a \$52.8 million, 96,000-square-foot interdisciplinary clean technology laboratory on the Pullman campus. The building will serve as a hub of interdisciplinary research and education in renewable materials, sustainable design, water quality, and atmospheric research.

WSU researchers discovered how to stretch metal films used in flexible electronics to twice their size without breaking. The breakthrough by Rahul Panat, Indranath Dutta, and graduate student Yeasir Arafat could lead to dramatic improvements in products such as bendable batteries, robotic skins, wearable monitoring devices and sensors, and connected fabrics.

WSU scientists discovered that consumption of berries, grapes, and other fruits converts excess white fat into calorie-burning beige fat. The finding by Min Du, professor of animal sciences, and visiting scientist Songbo Wang will spawn new strategies for the prevention and treatment of obesity.

The Daily Evergreen, WSU's student newspaper, won the top award for overall excellence from the Columbia Scholastic Press Association, an international student press group. It was one of just two such awards given among 1,203 digital and print college newspapers, yearbooks, and magazines.

Alaska Airlines announced plans to fly a demonstration flight in 2016 using 1,000 gallons of alternative biofuel being produced by the WSU-led Northwest Advanced Renewables Alliance (NARA). The fuel is made from forest residuals: the tree limbs and branches that remain after a forest harvest.

2016

On March 25, 2016, the Board of Regents named Kirk Schulz, president of Kansas State University, the next president of Washington State University.

The Board of Regents honored the late President Elson S. Floyd by awarding him an honorary doctoral degree and lending his name to the new cultural building under construction on the University's Pullman campus. The Elson S. Floyd Cultural Center recognizes the former president's legacy of commitment to students, diversity, and social justice.

WSU experienced its highest spring semester enrollment ever, registering 27,093 students across all campuses statewide. WSU Tri-Cities saw the largest growth—an 11.3 percent rise from the spring semester of 2015.

Joyce P. Griffin-Sobel was named dean of the WSU College of Nursing. Dr. Griffin-Sobel was dean and professor at the State University of New York Upstate Medical University in Syracuse.

A WSU student team was one of sixteen college teams worldwide chosen to participate in the U.S. Department of Energy's 2017 Solar Decathlon competition. Vying for \$2 million in prize money, the students will design and build a 600- to 1,000-square-foot home that receives all of its energy from the sun.

The first apple variety released by WSU, originally known as the WA 2, reentered the marketplace under the brand name Sunrise Magic.

Researchers in the College of Pharmacy discovered that a chemical in green tea blocks the painful effects of rheumatoid arthritis without blocking other cellular functions. Green tea could become an effective alternative to existing costly drugs.

Three WSU researchers received a \$2.1 million USDA grant to help fight "citrus greening disease," which threatens orange, lemon, and grapefruit groves around the world.

A drug, coinvented by WSU alumna Leen Kawas and professors Joe Harding and Jay Wright, to improve the cognitive and motor functions in people with Alzheimer's-like dementias and Parkinson's disease is on track to go into clinical trials in 2016. The M3 drug, known as MM-201, builds new connections between brain cells.

On Saturday, May 7, 2016, one of the best groups of students ever in the history of Washington State University graduated during the 120th annual Spring Commencement ceremony in Beasley Coliseum.

*Washington, my Washington,
the Crimson and the Gray!*

*'Tis the song of memory

*Just sing the songs of Washington,
the Crimson and the Gray!*
