Commencement Mission Statement

Commencement at Washington State University represents the culmination of a student's academic achievement. It is a time for celebration and reflection for students, families, faculty, and staff. It brings together the campus community to share the joy of the accomplished goals of our students.

The commencement ceremony at Washington State University serves a dual purpose: to mark a point of achievement, thus completing a chapter in the lives of students and those who support them, and to encourage continued pursuit of learning, personal fulfillment, and engagement with their local and worldwide communities.

Elson S. Floyd, Ph.D.
President,
Washington State University

Elson S. Floyd became the tenth president of Washington State University on May 21, 2007. He previously was president of the four-campus University of Missouri from 2003 to 2007, and he served as president of Western Michigan University from 1998 to 2003.

He began his career in 1978 at the University of North Carolina at Chapel Hill, where he held deanships in the Division of Student Affairs, the General College, and the College of Arts and Sciences. From 1988 to 1990, he was assistant vice president for student services for the UNC system office, where he helped develop student affairs and academic affairs policy for the 16-campus system.

From 1990 to 1993, Dr. Floyd filled vice presidencies at Eastern Washington University and then was executive director of the Washington Higher Education Coordinating Board. From 1995 to 1998, he was executive vice chancellor of UNC at Chapel Hill.

A native of Henderson, North Carolina, Dr. Floyd holds a bachelor of arts degree in political science and speech, a master of education degree in adult education, and a doctor of philosophy degree in higher and adult education, all from the University of North Carolina at Chapel Hill. Among his other honors is the 2004 Distinguished Alumnus Award from the University of North Carolina at Chapel Hill.

Today represents an impressive milestone in your life and in your academic career. I would like to extend my heartiest congratulations to you on your attainment of this goal.

At Washington State University, we strongly believe that we provide the tools necessary to help our students succeed. However, we also recognize that each student ultimately determines his or her own path. It is your hard work, determination, and persistence that have brought you to this day. You, your family, and your friends should be immensely proud of this achievement.

In the years ahead, I know you will often reflect upon what you have experienced here at WSU. Graduation opens the door for you to put to use what you have learned in your classes, laboratories, internships, and campus life. You now have the opportunity to make a difference in the world. Take advantage of it.

Again, congratulations. I wish you every success and trust that you will remain connected to WSU, your alma mater. You will always be a member of the loyal Cougar family.

It is an honor to preside at your commencement. I look forward to shaking your hand and wishing you well after you receive your diploma cover.

Elson S. Floyd, Ph.D.

President, Washington State University

President's Ceremonial Stole

Presented to President Elson S. Floyd during his first commencement ceremony at Washington State University in fall 2007, the ceremonial stole signifies the ethnic diversity the University seeks in all its endeavors and displays a dynamic visual presentation. Researched and designed by faculty member Linda Arthur Bradley with contributions from apparel, merchandising, design, and textiles students, the stole is made of textiles from locations including Ecuador, India, Scotland, and Japan. Many came from personal collections of Bradley or her colleagues, some were available commercially, and four were hand-woven by fiber artists specifically for the stole.

Master Salish weaver Susan Pavel hand-spun and wove two pieces of traditional Indian design. Other custom pieces include a Hawaiian hand appliqué by Charlotte Hughes, an American coverlet sampler by Cynthia Hosek, and embroidered pieces representing the Nez Perce tradition by Ann MacCormack.

President's Chain of Office

During commencement ceremonies and other special occasions, the president of Washington State University wears the President's Chain of Office. The medallion features the WSU shield with Cougar head, and the links are engraved with the names and dates of service for each past WSU president, starting with George Lilley, who served from 1891 to 1892, and ending with V. Lane Rawlins, who served from 2000 to 2007. Blank links allow engraving of names and service years for future presidents.

The Chain of Office was created at the request of V. Lane Rawlins, who became president of WSU on June 8, 2000. He wore it for the first time during his inauguration on March 28, 2001.

ACADEMIC REGALIA

Academic regalia arose through evolution and modification of the robes worn by medieval students, who were usually clerics in the cathedral schools and monasteries established by the church. As early as 1321, a medieval statute required that all doctors, licentiates, and bachelors wear academic gowns and hoods. Gowns were necessary for warmth in the unheated medieval buildings, and hoods may have been designed to cover tonsured heads. Today, immediately after receiving a charter, new institutions adopt a distinctive design for academic attire expressive of their individuality.

On May 26, 1895, a group of institutional representatives met at Columbia University to establish a uniform code for academic regalia in this country.

The approved academic attire for all graduates is composed of a cap and gown. For master's and doctoral graduates, a hood is included. The basic article of attire is the gown, usually black in color, and similar in design for all degrees with the sleeves being the principal indicator of degree level. Gowns for those graduating with a bachelor's degree have pointed sleeves; the sleeves on master's gowns arc away at the front; and doctoral gowns have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed while doctoral gowns feature distinctive velvet facing down the front and three velvet bars on each sleeve.

The hood has become the colorful standard-bearer of academic symbolism. By examining the hood, an informed observer should be able to identify the degree level, the academic field of study in which the degree was earned, and the institution that conferred the degree. The hood is made of the same material as the gown. Hood length varies according to degree: bachelor's—three feet, master's—three and a half feet, and doctor's—four feet in length and has panels at the sides. The color or colors of the hood lining indicate the institution that conferred the degree (crimson and gray for WSU). The hood is trimmed or edged in a border of velvet either two, three, or five inches in width for the respective degrees. The border color represents the faculty or field of study in which the degree was awarded. At WSU, bachelor's degree candidates do not wear hoods.

The approved cap of the academic costume is the mortarboard or Oxford cap—a stiff board nine inches square, placed on a soft cap and joined in a pointed design in front and back. The color is always that of the gown and uniformly black for the four-year degrees. The use of velvet has been reserved for the cap for the doctor's degree. A silk cord with a tassel made of many threads is attached to a button in the center of the board.

WSU is debuting a distinctive commencement gown for students earning Ph.D. and Ed.D. degrees. The gown is crimson with gunmetal-gray velvet accents and a matching velvet tam. The rental is available this spring. Custom gowns with additional embellishments will be available for purchase later this summer.

The committee of the American Council on Education on its "Academic Costume Code" states the following:

For all academic purposes—including trimming of doctor's gowns, edging of hoods, and tassels of caps—the colors associated with the different subjects are as follows:

Agriculture: *Maize*
 Arts, Letters, Humanities: *White*
 Commerce, Accountancy, Business: *Drab*

COMMENCEMENT 2012

Washington State University, on the occasion of its 116th annual spring Commencement, cordially welcomes all those who have come to the Pullman campus to share in ceremonies honoring the graduating class of 2012. To class members, the Class of 2012, the University extends sincere congratulations.

WSU enrolls 27,008 students statewide. This includes 18,803 undergraduates and 3,542 graduate and professional students learning at the Pullman and Spokane campuses or through distance education. At the Tri-Cities and Vancouver campuses, 4,663 undergraduate, graduate, and professional students are enrolled.

Commencement is the special occasion that provides public recognition of students' academic achievements. The transcript is the official document certifying the successful completion of specific academic requirements. The diploma is mailed after the ceremony.

The first WSU Commencement, held June 24, 1897, recognized eight students being advanced to degrees—three in engineering, one in biology, two in economics, and two in English. This followed a legislative act in 1895 empowering the college to grant

the usual academic and honorary degrees and issue diplomas.¹ With the construction of Bryan Hall in 1909, Commencement moved to the well-equipped Bryan Auditorium. Enrollment and the number of degree candidates increased over the years, and Commencement moved to Bohler Gymnasium following its construction in 1928. Following World War II and the burgeoning enrollment created by the return of students receiving veterans' benefits (G.I. Bill), Commencement was moved outdoors to Rogers Field in the football stadium (1949-1973). Because it was always possible that inclement weather would disrupt the ceremonies, it was necessary to duplicate arrangements in Bohler Gymnasium. However, only twice in those years—1954 and 1963—was it necessary to move the outdoor ceremony indoors. In 1973, with the completion of Beasley Performing Arts Coliseum, Commencement moved indoors permanently.

In 1986, the University's Commencement Committee recommended decentralizing Commencement to make the event more personal for graduating students. The WSU administration approved, and from 1986 through 1996, an All-University Commencement Assembly was held in the coliseum, and individual college ceremonies took place in the coliseum, Bohler Gymnasium, Bryan Auditorium, Compton Union Building Ballroom, and Hollingbery Fieldhouse. Beginning with the 100th Commencement in May 1996, the college ceremony times were changed to allow some to precede the All-University Assembly. In 1998, due in part to construction in Bohler, the administration approved a Commencement Committee recommendation to hold two ceremonies. Starting in 2000, a three-ceremony format (two ceremonies in the morning and one in the afternoon) was instituted. There was a historic Commencement change during the 2001-

Within academic areas on either side of the floor, the names of the degree recipients are called in random order as they approach the readers. Students will be viewed on big screens via video as their names are read.

Appearance of a name in this program is presumptive evidence of graduation and graduation honors, but it must not in any sense be regarded as conclusive. Notation on the university transcript remains the official testimony of degree possession.

Names in this program include only those who have applied to graduate in May. Names are not necessarily representative of those attending the spring commencement ceremony. Names for August and December graduates appear in the fall program.

¹*Historical Sketch of the State College of Washington, 1890-1925*, by E. A. Bryan

2002 academic year. For the first time, WSU held two Commencements, one during fall semester (December 15, 2001) and the other during spring semester (May 11, 2002).

This is the University's one hundred and sixteenth spring ceremony. President Elson S. Floyd, WSU's tenth president, now presides over the ceremonies.

THE UNIVERSITY MACE

The University Mace, a traditional symbol of authority, will lead the processional today. The mace is carried by the chair of the Faculty Senate with an honor guard consisting of the presidents of the undergraduate and graduate and professional student associations. Robert Greenberg (chair elect of the Faculty Senate) carries it today, accompanied by Riley Myklebust, president of the Associated Students of WSU, and Ericka Christensen, president of the Graduate and Professional Student Association of WSU.

Created in 1985, the two-foot-long, nine-pound scepter is cast in silver and bronze and features a globe atop a laurel branch, wrapped in a silver ribbon and inscribed "Washington State University." According to designer and craftsman Tim Doeblner of WSU's Department of Fine Arts, "the globe represents the universality of education and the quest for knowledge. Laurel crowns were presented to academicians by the ancient Greeks."

The anvil on top of the globe is a symbol of forging and molding education, rather than forcing it upon students.

GRADUATION WITH ACADEMIC HONORS

Students in the class of 2012 who have demonstrated exceptional academic performance may graduate as members of one of the following categories:

Christine Gregoire
Governor, Washington State

COMMENCEMENT SPEAKER, 8:00 A.M. CEREMONY

As Washington's twenty-second governor, Chris Gregoire has been a tireless champion for the people of the state. From proposing reforms to transform our education system into the nation's best, to major initiatives that streamlined government and made it more efficient, Governor Gregoire has worked hard over two terms to make Washington a great place to raise a family, work, and run a business.

Facing a \$2.2 billion shortfall in 2005 when she was sworn in, Governor Gregoire balanced the state's budget as she expanded health care coverage to low-income children, created an Early Learning Department which will help ensure all kids are prepared to learn when they enter kindergarten, expanded college and university enrollments and the branch campus network, and launched a bold plan to save Puget Sound. In 2007, she proposed, and the voters passed, a constitutionally protected rainy day fund to prepare the state for economic downturns.

Governor Gregoire has asserted uncommon leadership through initiatives to keep costs down and boost service to taxpayers. She authored a package of reforms that will save \$1.1 billion over the next four years in the state's workers' compensation system. She also sponsored a set of reforms to the unemployment insurance system that saved businesses \$300 million in the first year alone.

Governor Gregoire knew we had to look beyond the recession and prepare the state so it would emerge stronger than ever. She proposed investments in the state's aerospace sector, including funding slots in public universities to educate more engineers so Washington would remain competitive in this vital industry. She improved roads, bridges and ferries which are needed to get workers to the job and products to market. Her innovative Life Sciences Discovery Fund is helping turn cutting-edge research into jobs for the future.

Recognizing healthy families are the backbone of our communities, Governor Gregoire worked to improve the affordability and quality of health care. Her reforms included the use of evidence-based medicine which ensures patients receive health care that works, and expansion of chronic care management to better serve the 5 percent of patients who use 50 percent of health care resources.

Governor Gregoire also has worked for a healthier environment. She brought together environmentalists, local government, sportsmen and women, and tribal and business leaders to restore and preserve the health of Puget Sound. The Puget Sound Partnership is actively implementing an action agenda to protect and restore the Sound by 2020. Her work also has helped the state reduce global warming emissions, lower its dependence on foreign oil, and increase energy production from renewable sources such as wind power.

Chris O'Grady was raised in Auburn, Washington, by her mother, who worked as a short-order cook to support the family. After graduating from Auburn High School, Chris entered the University of Washington, where she earned a teaching certificate and Bachelor of Arts degree in speech and sociology. She met her husband, Mike, in September 1971 when they both worked for the Washington Department of Social and Health Services. Chris received her law degree in 1977 from Gonzaga University. Chris and Mike have two daughters, Courtney and Michelle. Courtney is married to Scott Lindsay, and is an attorney. Michelle is attending law school.

The WWAMI (Washington, Wyoming, Alaska, Montana, Idaho) Medical Education Program is offered in partnership with the University of Washington School of Medicine and host universities throughout the five-state regional system. Students from Washington complete their first year of medical training at the University of Washington, WSU Pullman, or WSU Spokane and complete the remainder of their medical training in Seattle, Spokane, eastern Washington, or training sites throughout the WWAMI region. The WSU Pullman WWAMI program is offered jointly with the University of Idaho WWAMI program and offers first-year medical students the opportunity to train with the combined biomedical faculties and the teaching, research, and training facilities on both campuses. WSU WWAMI students also complete their first clinical training rotations with local physicians, clinics, and hospitals in Pullman and Moscow.

WASHINGTON, MY WASHINGTON

*Washington, My Washington
The Crimson and the Gray,
'Tis the songs of memory
That we sing today,
When the sad hours come to you
And sorrows 'round you play,*

*Just sing the songs of
Washington
The Crimson and the Gray,
Just sing the songs of
Washington
The Crimson and the Gray.*
