   h. Addenda will be forwarded to all plan holders. Addenda will be issued no later than.
   i. This is an active campus. There are students, faculty and visitors who either will not be aware of construction or will be distracted. Contractors must routinely work around the pedestrian population on campus as well as control noise and other construction related activities to minimize the effect on the campus. WSU is committed to a completely accessible campus. This means that when construction activities interfere with accessible pathways, that the General Contractor is responsible for putting in place temporary facilities (ramps, pathways, etc.,) to assure that all pathways are available. The WSU Pullman campus is a tobacco free campus.

Project Description: Rogers and Orton Halls are 12 story student dorms on the Washington State University Campus located in Pullman WA. The condition of the exterior columns are showing signs of water damage and subsequent deterioration at floor levels 4, 7, and 11 splice joints at the West and East side of Rogers Hall and Orton Hall. Although the damage progression appears to be fairly slow, we want to repair these areas to prevent further deterioration and extend the useful life of the structures. Contract time shall be May 13-August 5, 2024 from Notice to Proceed.

2. Scope of work:
   a. Alternates: None
   b. Unit Prices: Unit Price No.1 Type A Repair. See sheet S-100 for detailed scope;
      Unit Price No.2 Type B Repair . See sheet S-100 for detailed scope
