How to Install Office 365 - Mac
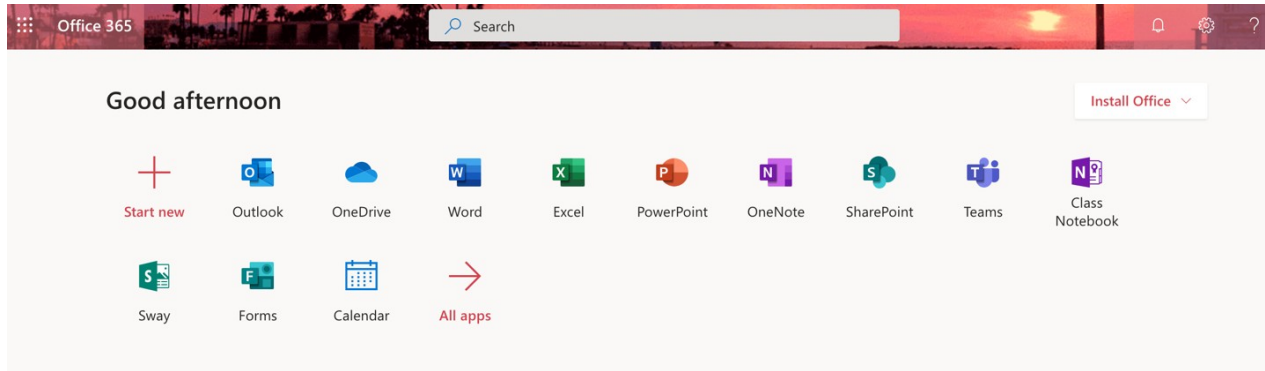

1 Open a web browser, go to **office365.wsu.edu**.

2   Login with your WSU **Network ID** and **Password**.

3 Once at the Office 365 main page, click on **Install Office** at the top right and select the option to download Office applications.

4 Open the download Office install file to begin the installation.

5 Click **Agree** for the Software License.

6 Click **Install**. The **Office** suite of applications will now be available in your list of applications on your Mac.
