

School Nursing: preparation for Initial Certification

Course description

This course is designed for the BSN-prepared nurse who wishes to prepare for Educational Staff Associate Initial Certification as a School Nurse. Topics will include the role of the school nurse, schools and society, growth and development, learning strategies, school law and the legal and professional responsibilities of the ESA-prepared school nurse. This hybrid course will incorporate independent study and classroom instruction. Independent study course materials are to be completed and submitted to the faculty prior to the dates of classroom instruction for evaluation. The hybrid course includes 24 hours of instruction.

Objectives

Upon completion of this course participants should be able to:

1. Analyze the role of the school nurse specialist, practitioner, collaborator, professional.
2. Discuss legal and educational responsibilities that influence school health and services, including the state learning goals and essential academic learning requirements.
3. Explore environmental, socioeconomic, developmental and cultural variables affecting health status of the school age child.
4. Utilize knowledge of common health needs and problems of school age population to develop strategies for planning and implementing programs of care.
5. Discuss legal and professional issues related to documentation and provision of nursing care in the school setting.
