School Nursing: Preparing for Initial Certification

This course is designed for a nurse with a BSN who wants to prepare for certification as a school nurse.

Topics include the role of the school nurse, schools and society, growth and development, learning strategies, school law, and the legal and professional responsibilities of the ESA-prepared school nurse.

This hybrid course incorporates independent study and classroom instruction. Independent study course materials are to be completed and submitted to the faculty prior to the dates of classroom instruction for evaluation.

For the first time, we’re offering the option of taking this course via virtual classroom using Zoom. This option allows for real time, face-to-face education, which is required by the Office of Superintendent of Public Instruction to count clock hours during the pandemic. Nurses can choose to attend in-person or via Zoom.

The course will include 24 hours (self-study and live sections) of instruction.

Cost: $450 (Note: We are unable to process purchase orders at this time.)
