The National Park Service, Natural Resource Stewardship and Science office in Fort Collins, Colorado publishes a range of reports that address natural resource topics of interest and applicability to a broad audience in the National Park Service and others in natural resource management, including scientists, conservation and environmental constituencies, and the public.

The Natural Resource Report Series is used to disseminate high-priority, current natural resource management information with managerial application. The series targets a general, diverse audience, and may contain NPS policy considerations or address sensitive issues of management applicability.

All manuscripts in the series receive the appropriate level of peer review to ensure that the information is scientifically credible, technically accurate, appropriately written for the intended audience, and designed and published in a professional manner.

Data in this report were collected and analyzed using methods based on established, peer-reviewed protocols and were analyzed and interpreted within the guidelines of the protocols.

Views, statements, findings, conclusions, recommendations, and data in this report do not necessarily reflect views and policies of the National Park Service, U.S. Department of the Interior. Mention of trade names or commercial products does not constitute endorsement or recommendation for use by the U.S. Government.

This report is available from the Social Science Division (<http://www.nature.nps.gov/socialscience/index.cfm>) and the Natural Resource Publications Management website (<http://www.nature.nps.gov/publications/nrpm/>).

This report and other reports by the Visitor Services Project (VSP) are available from the VSP website (<http://www.psu.uidaho.edu/c5/vsp/vsp-reports/>) or by contacting the VSP office at (208) 885-7863.

Executive Summary

This visitor study report profiles a systematic random sample of Yellowstone National Park (NP) visitors during July 23-29, 2011. In total, 1314 questionnaires were distributed to visitor groups. Of those, 900 questionnaires were returned, resulting in a 68.5% response rate.

Group size and type	Thirty-four percent of visitor groups consisted of two people and 22% consisted of four people. Seventy-eight percent of visitor groups consisted of family groups.
State or country of residence	United States visitors were from 48 states and Washington, DC and comprised 88% of total visitation during the survey period, with 8% from California. International visitors were from 30 countries and comprised 12% of total visitation during the survey period with 27% from Canada.
Frequency of visits	Most visitors (88%) were visiting the park for the first time in the past 12 months and 55% were visiting the park for the first time in their lifetime. Fifteen percent had visited twice in their lifetime.
Age, ethnicity, race, and education	Forty-three percent of visitors were ages 41-65 years, 23% were ages 15 years or younger, 17% were ages 21-40, and 5% were 71 or older. Three percent were Hispanic or Latino. Ninety-two percent of visitors were White and 5% were Asian. Fifty-five percent of respondents had a bachelor's degree or graduate degree.
Preferred language	Most visitor groups (97%) preferred speaking and reading English. Twenty-four percent of visitor groups wanted services provided in another language.
Physical conditions	Nine percent of visitor groups had members with physical conditions affecting their ability to access or participate in activities and services. Of those visitor groups, 82% had problems with mobility.
Household size and income	Forty-two percent of the households were comprised of two people. Twenty-two percent had four people in their household. Forty percent of households had an income of \$75,000 to \$149,999. Sixteen percent had a household income of \$50,000 to \$74,999.
Information sources	Most visitors (91%) obtained information about the park prior to their visit through friends/relatives/word of mouth (59%), the park website (56%), and maps/brochures (55%). Most visitors (96%) received the information they needed. Seventy-four percent of visitor groups prefer to use the park website to obtain information for a future visit.
Park as destination	For 50% of visitor groups, the park was one of several destinations, and for 47%, the park was the primary destination.
Primary reason for visiting the area	Four percent of visitor groups were residents of the area (within 150 miles of the park). The most common primary reasons for visiting the park area among non-resident visitor groups were to visit the park (71%) and visit relatives/friends in the area (7%).
Transportation and road signs	Eighty-five percent of visitor groups used one vehicle to arrive at the park. Most visitor groups (92%) found the park signs adequate, 90% found state highways adequate, and 81% found interstate signs to be adequate.

Executive Summary (continued)

Park entries	Thirty-five percent of visitor groups entered the park one time during their stay and 25% entered the park twice. Fifty-five percent of the entries were through the West Yellowstone entrance, 40% were through the South Entrance, and 29% came through the North Entrance.
Overnight stays	Most visitor groups (91%) stayed overnight in the area within 150 miles of the park or within the park. Of those that stayed in the park, 27% stayed five or more nights. Twenty-three percent of visitor groups stayed six or more nights outside the park in the area (within 150 miles of the park).
Accommodations	Sixty-four percent of visitor groups that stayed in the park used a lodge, hotel, motel, cabin, or B&B and 39% camped in a developed campground. Four percent of the visitor groups stayed overnight at the Old Faithful Inn. Those visitor groups that stayed outside the park used a lodge, motel, cabin, rented condo/home, or bed and breakfast (71%) and 29% camped in a developed campground.
Length of stay	Of the visitor groups that spent less than 24 hours in the park, the average length of stay was 9.9 hours. Of the visitor groups that spent 24 hours or more, the average length of stay was 5 days. The average length of stay for all visitor groups was 67.1 hours, or 2.8 days.
Locations visited in the park	Seventy-five percent of visitor groups visited all the locations in the park that they had planned to visit. Ninety percent of visitor groups visited Old Faithful, 69% visited Mammoth Hot Springs, and 66% visited Canyon Village.
Time spent at park sites	The most common length of time spent at each location was 1-2 hours. Twenty-two percent of visitor groups spent five or more hours at Old Faithful. The highest average number of days spent was four days at Madison.
Activities on this visit	The most common activities were sightseeing/taking a scenic drive (91%), viewing wildlife/birdwatching (82%), boardwalk/geyser basin (78%), and shopping in park stores (76%). Thirty-three percent of visitor groups visited two park visitor centers or museums on this trip.
Primary reason for visiting the park	Forty-three percent of visitor groups listed sightseeing/taking a scenic drive as their primary reason for visiting the park.
Locating commercial services	Eight percent of visitor groups indicated that they had difficulty finding commercial services. The most common reason for having difficulty finding services was signs (28%).
Commercial services used	Seventy-five percent of visitor groups purchased gifts/souvenirs and 75% ate at a restaurant or used other food services. Forty one percent of visitor groups purchased gas.
Rating commercial services	More than half of all visitor groups were able to get their first choice of lodging, campgrounds or food services. Most also indicated that the services/activities met their expectations while 15% or less services/activities were rated "worse than expected."

Executive Summary (continued)

Concession services and activities	Seventy-eight percent of visitor groups were able to use the services/activities that they had planned prior to visiting the park. Specifically, 31% planned to participate in a trail ride (28% did participate), 19% planned a scenic motorized tour (18% did), 19% planned a scenic boat tour (17% did), and 17% planned a cookout (14% did).
Concession value for money paid	The concession services that received the highest combined “very good” and “good” ratings for money paid were campgrounds (68%), lodging (50%), and purchasing gifts/souvenirs (44%).
Expenditures	The average visitor group expenditure (inside and outside the park within 150 miles) was \$1268. The median group expenditure (50% of groups spent more and 50% of groups spent less) was \$700, and the average total expenditure per person (per capita) was \$416.
Technology access on future visits	Seventy-four percent of visitor groups would like to have cell phone access in developed areas of the park on future visits. Fifty-six percent of visitor groups would like to have internet access.
Overall quality	Most visitor groups (91%) rated the overall quality of facilities, services, and recreational opportunities at Yellowstone NP as “very good” or “good.” Two percent of groups rated the overall quality as “very poor” or “poor.”

Introduction

This report describes the results of a visitor study at Yellowstone National Park (NP) in Wyoming, conducted July 23–29, 2011 by the National Park Service (NPS) Visitor Services Project (VSP), part of the Park Studies Unit (PSU) at the University of Idaho.

As described in the National Park Service website for Yellowstone NP, “...the park was established in 1872 as America’s first national park—an idea that spread worldwide. A mountain wildland, home to grizzly bears, wolves, and herds of bison and elk, the park is the core of one of the last, nearly intact, natural ecosystems in the Earth’s temperate zone.” (www.nps.gov/yell, retrieved April 2012).

Organization of the Report

This report is organized into three sections.

Section 1: **Methods**. This section discusses survey methodology procedures, limitations, and special conditions that may affect the study results.

Section 2: **Results**. This section provides a summary for each question in the questionnaire and includes visitor comments to open-ended questions. The presentation of the results of this study does not follow the order of questions in the questionnaire.

Section 3: **Appendices**

Appendix 1: *The Questionnaire*. A copy of the questionnaire distributed to visitor groups.

Appendix 2: *Additional Analysis*. A list of sample questions for cross-references and cross comparisons. Comparisons can be analyzed within a park or between parks. Results of additional analyses are not included in this report.

Appendix 3: *Decision Rules for Checking Non-response Bias*. An explanation of how the non-response bias was determined.

Presentation of the Results

Results are represented in the form of graphs (see example below); scatter plots, pie charts, tables, and text.

SAMPLE

1. The figure title describes the graph's information.

2. Listed above the graph, the "N" shows the number of individuals or visitor groups responding to the question. If "N" is less than 30, "**CAUTION!**" is shown on the graph to indicate the results may be unreliable.

* appears when the total percentages do not equal 100 due to rounding.

** appears when total percentages do not equal 100 because visitors could select more than one answer choice.

3. Vertical information describes the response categories.

4. Horizontal information shows the number or proportion of responses in each category.

5. In most graphs, percentages provide additional information.

Methods

Survey Design and Procedures

Sample size and sampling plan

All VSP questionnaires follow design principles outlined in Don A. Dillman's book *Mail and Internet Surveys: The Tailored Design Method* (2007). Using this method, the sample size was calculated based on the park's visitation statistics of previous years.

Brief interviews were conducted with a systematic, random sample of visitor groups that arrived at nine sites during July 23-29, 2011. Visitors were surveyed between the hours of 8 a.m. and 7 p.m. Table 1 shows the nine locations and for each location, the number of questionnaires distributed and response rate. During this survey, 1427 visitor groups were contacted and 1314 of these groups (92.1%) accepted questionnaires. (The average acceptance rate for 250 VSP visitor studies conducted from 1988 through 2011 is 91.5%.) Questionnaires were completed and returned by 900 respondents, resulting in a 68.5% response rate for this study. (The average response rate for the 250 VSP visitor studies is 72.3%.)

Questionnaire design

The Yellowstone NP questionnaire was developed through conference calls between the park and the VSP staff to design and prioritize questions. Some of the questions are comparable with VSP studies conducted at other parks while others were customized for Yellowstone NP. Many questions ask respondents to choose answers from a list of responses, often with an open-ended option, while others are completely open-ended.

No pilot study was conducted to test the Yellowstone NP questionnaire. However, all questions followed Office Management and Budget (OMB) guidelines and/or were used in previous surveys; thus the clarity and consistency of the survey instrument have been tested and supported.

Survey procedure

Visitor groups were greeted, briefly introduced to the purpose of the study, and asked to participate. If visitors agreed, they were asked which member (at least 16 years old) had the next birthday. The individual with the next birthday was selected to complete the questionnaire for the group. An interview, lasting approximately two minutes, was conducted with that person to determine group size, group type, the age of the member completing the questionnaire, and how this visit to the park fit into their group's travel plans. These individuals were asked their names, addresses, and telephone numbers or email addresses in order to mail them a reminder/thank-you postcard and follow-ups. Participants were asked to complete the survey after their visit, and mail it using the Business Reply Mail envelope provided.

Two weeks following the survey, a reminder/thank-you postcard was mailed to all participants who provided a valid mailing address (see Table 2). Replacement questionnaires were mailed to participants who had not returned their questionnaires four weeks after the survey. Seven weeks after the survey, a second round of replacement questionnaires was mailed to participants who had not returned their questionnaires.

Table 2. Follow-up mailing distribution

Mailing	Date	U.S.	International	Total
Postcards	August 15, 2011	1107	135	1242
1 st replacement	August 29, 2011	572	70	642
2 nd replacement	September 19, 2011	446	0	446

Data analysis

Returned questionnaires were coded and the responses were processed using custom and standard statistical software applications—Statistical Analysis Software® (SAS), and a custom designed FileMaker Pro® application. Descriptive statistics and cross-tabulations were calculated for the coded data; responses to open-ended questions were categorized and summarized. Double-key data entry validation was performed on numeric and text entry variables and the remaining checkbox (bubble) variables were read by optical mark recognition (OMR) software.

Limitations

As with all surveys, this study has limitations that should be considered when interpreting the results.

1. This was a self-administered survey. Respondents completed the questionnaire after their visit, which may have resulted in poor recall. Thus, it is not possible to know whether visitor responses reflected actual behavior.
2. The data reflect visitor use patterns at the selected sites during the study period of July 23-29, 2011. The results present a 'snapshot in time' and do not necessarily apply to visitors during other times of the year.
3. Caution is advised when interpreting any data with a sample size of less than 30, as the results may be unreliable. When the sample size is less than 30, the word "**CAUTION!**" is included in the graph, figure, table, or text.
4. Occasionally, there may be inconsistencies in the results. Inconsistencies arise from missing data or incorrect answers (due to misunderstood directions, carelessness, or poor recall of information). Therefore, refer to both the percentage and N (number of individuals or visitor groups) when interpreting the results.

Special conditions

The weather during the survey period was mostly sunny and warm. July 25-27 had some cloud cover and wind. No special events occurred in the area that would have affected the type and amount of visitation to the park.

Checking non-response bias

Five variables were used to check non-response bias: participant age, group size, group type, park as destination, and participant proximity from home to the park. All variables were found to be insignificantly different between respondents and non-respondents except for average age (see Tables 3 - 6). Respondents at younger age ranges (especially 40 and younger) may be underrepresented in the results. See Appendix 3 for more details of the non-response bias checking procedures.

Table 3. Comparison of respondents and non-respondents by average age and group size

Variable	Respondents	Non-respondents	p-value (t-test)
Age (years)	50.50 (N=900)	42.97 (N=415)	<0.001
Group size	3.88 (N=893)	4.05 (N=414)	0.362

United States visitors by state of residence**Question 17c**

For you and your personal group on this visit, what is your state of residence?

Note: Response was limited to seven members from each visitor group.

Results

- U.S. visitors were from 48 states and Washington, DC and comprised 88% of total visitation to the park during the survey period.
- 8% came from California and 8% were from Utah (see Figure 7 and Table 7).
- Smaller proportions came from 46 other states and Washington, DC.

- Nothing, we liked everything
- Nothing. Some bathrooms had line-ups.
- Only used food, restaurants
- Operating hours 9 am - 8 pm; better would be 8 am to 9 pm
- Our room at Old Faithful Inn faced out to the main entrance and was noisy
- Over crowded
- Overcrowded
- Overpriced
- Parking
- Parking
- Parking and traffic flow bad, almost dangerous at bottom of large falls and near gift shop
- Parking issue
- Parking lots were poorly laid out
- Parking was congested, but found availability ok.
- Paying extra for showers while staying at Fishing Bridge
- Poor design of showers at Roosevelt
- Poor food, not open early enough, high gas price, full campgrounds, crowded campgrounds, barren campgrounds, lack of adequate # of lodging and campgrounds, dead mice smell in several facilities
- Poor groceries. Every shop sells the same stuff.
- Poor signage
- Poor value
- Poorly kept campsites, advertisements that featured Xanterra made it seem one was in Xanterra land not Yellowstone.

- Prices of gas and food were high
- Prices seemed high
- Prices varied on same item in each location
- Prices were a little high
- Prices were high
- Prices were high for food
- Prices were higher in commercial store as they did not accept Yellowstone Association discounts
- Prices were higher than normal
- Prices were slightly high
- Prices were too high
- Pricing between stores next to each other
- Pull out for trailers were close to the road
- Quality and especially variety of the food. Good food equals expensive, affordable equals bad.
- Quality of food
- Quality of food for price. Hotel room for price. Insufficient handicap spots.
- Quality of food poor. Better than old days, but a long way to go.

- Road signs

- Road surfaces around Canyon Lodge were terrible - so many potholes
- Roads need widening and improving
- Roads were sometimes confusing - Old Faithful area
- Room at lodge was not ideal
- RV parking
- RV parks
- Same food at most areas
- Same stuff year after year
- Sanitary facilities at the campground were ridiculously inadequate
- Service in some restaurants
- Service station hours were short; lack of cell phone service
- Service was slow at restaurant
- Small in size
- Smaller restrooms were really disgustingly dirty
- So many foreign people
- Some food was not very good
- Some of restaurants are pretty dismal - 70's style dark decor - no good coffee anywhere
- Some prices seemed excessive
- Some restaurants not open for lunch
- Some restrooms, restaurant
- Some stores had very limited selection of take-out food/groceries. Lodging was full so we could not stay in the park.
- Some were very crowded
- Some things were closed a little early
- Sometimes slow service
- Sometimes very busy
- Stairs
- Store too small, too many people
- Stores

- Stores are all the same
- Stores were too expensive
- Stroller rental would have been nice, more parking in Mammoth Springs
- Telecom infrastructure
- The attitude that they owned the park instead of the USA people
- The bathrooms were messy
- The cabins at Canyon Village need repaired and updated
- The cost
- The cost of commercial services were high, but it was expected
- The expense of souvenirs and food
- The food choices at the restaurants need to be changed to less "formal"
- The food service at Mammoth Hotel was disappointing. A little more variety on food offerings throughout.
- The lack of internet, cellphone signal
- The ladies room at Roosevelt in the main building needs a couple more stalls

- The language barrier between us and the food service workers at Lake Lodge
- The lines
- The lines were a little long
- The Old Faithful burger joint
- The park is increasingly expensive and less affordable
- The price was a bit overrated
- The prices are too high
- The prices of everything too high
- The pull offs on the roads need to be repaired and Canyon Village at Mt. Washmore
- The quality of the food in the restaurants was average
- The restroom facilities at the restaurants were minimal - not enough stalls
- The rude Xanterra staff
- The selection of food choices, needs more variety and fruits
- The waiting time for food in the restaurants
- Their existence
- There could be more variety of restaurants
- There was nothing that we had a problem with
- There was nowhere to stay
- There was the same thing in all of the stores
- They are expensive
- They are expensive and the selection is poor. Cooke City (which seems to be as remote) has a better selection and prices in their little general store.
- They were full
- They were perfect as-is
- Thought restaurants quite expensive and seemed to be serving similar food
- Tight camping area
- Toilet are okay but visitors dirty it
- Toilets need to be cleaned on regular basis
- Too crowded
- Too crowded

- Too crowded in gift shops
- Too expensive
- Too many gift shops, cafeteria at lake quite expensive for quality, wish we had known about snack bar option
- Too many gift shops, etc., too crowded
- Too many other people
- Too many unnecessary plastic products, e.g. bottles, cups, etc.
- Tow service is a monopoly
- Traffic
- Traffic
- Unable to obtain lodging in the park - not pet friendly
- Unaffordable lodging
- Unclean bathrooms, high food prices/poor quality

- Used them all very little - no opinion
- Varied tax rates at different locations
- Very expensive overall
- Very high standard
- Waiting at west gate since prepaid lane was closed
- Waitress service - slow
- Washrooms are either outdated or too scarce, hate the potties
- We are a family of 5 so at least one child had to sleep on the floor. Lack of cots was disappointing.
- We couldn't stay long
- We couldn't use camping because there was not enough spaces
- We did not use any
- We didn't like how we were camped so close together at Fishing Bridge
- We enjoyed picnicking, but were hard-pressed to find shaded picnic areas
- We found nothing to complain about, except lack of cell service in some areas, but that was not a problem
- We liked it all
- We needed much juice to drink, packages were too small.
- We should have been advised that ordering off the menus vs. buffet would be a much, much longer wait, i.e., 25 minutes or more!
- We were disappointed in the limited access in the Tower Falls area
- We were missing a normal grocery for shopping regular food as in Grand Teton
- We were there around noon, it was hard to get something to eat
- Wish more restaurants
- Worried a little about finding gas
- Would have liked more food options
- Would like a variety of buffalo meat beside ground. Maybe steaks?
- Xanterra website is no good, too crowded

Question 24

Is there anything else you and your personal group would like to tell us about your visit to Yellowstone NP? (Open-ended)

- \$25 is too much of an entrance fee for a day trip. It would be nice to have a \$12-15 one day pass.
- A great park - true asset to the state and the nation
- A little road repair on Upper Terrace by Mammoth would be nice. Also, a map that has all the sights marked.
- All concessionaire employees should have a good command of the English language
- All employees were very friendly and helpful. Wonderful time our girls will remember for life. First really family vacation – wonderful.
- All flags on campers should be required to be taken down at night to preclude having to illuminate them, which disturbs others nearby.
- All lodging was sold out - all four days
- All people attending to the public were very friendly, helpful, attentive and kind. Especially at gate entrances, food centers, lodging headquarters, and visitor centers
- All pull-offs not marked on maps; at first didn't know to ask for things available but not offered - e.g. day hike maps
- Allow personal selection of campsites
- Allow pets (on leash) on some park trails, not high use areas
- Always great, loved the re-growth of trees that had burned
- Amazing there is so little litter in areas with so much walking traffic. Also, speed limits were good; hardly any rude drivers
- Amazing, beautiful, wonderful family trip
- Amenities at sites, safety, roads and areas to pull off to view were great
- An amazing experience
- An enjoyable time was had by all. Roads in very good condition.
- An excellent experience
- Artist paint pots - bathrooms and more parking
- Norris Basin - more parking
- Better bathrooms in general
- As a biker (touring), larger or wider shoulder could be nice
- As always, I had a fabulous time!
- Aside from only seeing three elk and one buffalo, we really enjoyed our visit
- At night, signs on roads are difficult to read. Some small lighting or reflective paint may make them easier to read
- At the entrances more directional signage would be helpful
- Awesome
- Awesome
- Awesome. We loved the Junior Ranger program.
- Beautiful
- Beautiful and unique
- Beautiful as usual!
- Beautiful country
- Beautiful park. Hope it always stays protected! We had a good experience.
- Beautiful place

- Beautiful place, friendly park rangers, good value for virtually everything and everyone
- Beautiful scenery and plenty of wildlife to photograph. Wonderful weather. Park personnel very helpful and pleasant.
- Beautiful scenery, particularly waterfalls. Clean, well-maintained, good road access.
- Beautiful visit
- Beautiful, amazing park - keep it clean and usable for all the future.
- Beautiful! Traffic control was great and speed limits well posted.
- Beautiful! We would come again!
- Beautiful. Good use of tax dollars.
- Because we were traveling with our dog we did not experience as much of the park as we would have liked. If we return we will not bring a pet so we can do much more of the backcountry camping/hiking. It seems like the NPS is relying on volunteers more and more. We remember a time when there were more rangers, less volunteers. We recognize this is a funding issue and we support the NPS.
- Before you brought the wolves in I saw many moose, bear, elk etc. Now - nothing. That's why I won't spend a dime here, nor will any of my family, until you kill the wolves and let the moose come back.
- Better hiking guides and updated information on wildlife sighting
- Better promotion and description of day hiking trails to encourage usage. Enlarge parking facilities.
- Better restaurant cooks
- Biking made driving dangerous. Wish people would not be able to ride bikes in the park
- Campgrounds need to be improved and some of the roads. On previous visits we always enjoyed more presence of Park Rangers, this added to our feeling of safety
- Campgrounds too full, parking areas overcrowded, too primitive facilities like restrooms
- Can't wait to come back
- Cell service is needed to keep in touch with other visitors. Would love to have electric hookups so we could have stayed at Madison.
- Comment on Q11: don't care about cell phone or internet access
- Congestion in the parking area getting in and out of sightseeing areas (bus as well as cars)
- Continue preserving nature and wildlife. Good job.
- Crowded, but I would not want to jeopardize the integrity and true meaning of the park. I love the park.
- Data may not be 100 percent accurate as it was an unexpected side trip to our main trip to BYU-I and much of the data included includes money and nights spent there
- Did not feel safe not having access to cell phone
- Did not see very much wildlife, we were not camping so didn't have things prepared to stay in primitive cabin with no indoor toilet or shower - prices should have been cheaper
- Didn't expect so many burnt food. Mammoth Springs dried for over ten years, but not mentioned. Not as much wildlife as expected. Upper geyser was beyond expectations - brilliant.
- Disappointed. Yellowstone is too commercialized, busy, crowded, over used and camping was awful. Don't appreciate privatizing of services in our national parks.
- Don't think so. Pretty thorough survey.
- Door showers in campground
- Driving our motorhome around the park was easier than expected
- Employees at the backcountry camping offices were very helpful!
- Enjoyable. Some of the rest area services need to be improved-smaller units, too few, over used, smelly, etc.
- Enjoyed all of the park, scenery, animals

- Enjoyed it
- Enjoyed opportunity to stop and fly fish when we saw a good spot. Thanks.
- Enjoyed the guided tours, especially with Harlan Kredit. The park is clean. The rangers are very helpful.
- Enjoyed the wild life. Campgrounds clean
- Enjoyed visit - especially side roads to points of interest
- Enjoyed visit - one view was more spectacular than the previous. Magnificent!
- Enter park too late
- Entrances open too late in the am so revenue is lost, entrances are inadequately staffed. We were treated rudely at south entrance by harried man working. Tent camping should not be allowed. Host at Pebble Creek doesn't take bears seriously enough. He rode around on bike telling people to come see the bear and people ran through camp towards bear's location. In morning I had a grizzly (I am familiar with bears) 40 feet from camper. I told host who was not concerned. After fatality last year where we camped last year and the fatality and attack this year it is time for things to change.
- Every ranger and other employee whom we encountered were very, very pleasant and helpful. Thank you, we love the National Park Service.
- Every time I visit, I am saddened by how much more crowded things are becoming
- Everything was fine. Facilities were clean. I will come back one day. I had great holidays. Sightseeing was great. Pictures were very good. Food in cafeteria was also very good. Thanks again.
- Excellent care of park. Well maintained.
- Exceptional trip - loved every minute
- Fair warning should be given regarding some of the lack of shoulders when driving along steep cliffs, i.e., the NE loop. I became anxious and my kids were afraid. I would have preferred my husband drive the route.
- Fantastic park, but crowded!
- Fantastic place - Old Faithful Inn is a gem. Thank you to the National Park Service for making the park so accessible, yet preserving it. It made a very favorable impression on two teenage girls. Thank you.
- First time and really enjoyed ourselves. We will be back in the future.
- Food service at lodges/restaurants was expensive and average to poor. Cell coverage was very poor.
- Geysers and hot springs were amazing. We would like to have seen some more wildlife, but didn't allow enough time for hiking and getting to quieter spots.
- Granddaughter's first visit. Enjoyed hikes. Will stay in the park next time so we are not so rushed. Will be back sooner than 22 years that passed this time.
- Great family vacation
- Great good time, mild weather
- Great other than the bathrooms and the cost of a bag of ice
- Great park
- Great park, would visit again. Friendly personnel.
- Great park. Very clean and staff helpful.
- Great place would like to come back in spring
- Great place!
- Great rangers! Really enjoyed with them while hiking/walking on boardwalk at hot springs
- Great stay as usual - very, very busy this season
- Great trip, would do it again

- Great trip! Would love to come back!
- Great vacation
- Great visit, took Xanterra tour with Janice and Geoff (super tour guides)
- Great website. Need better traffic control at wildlife jams.
- Had a great time!
- Had a lovely time. Loved the Wolf and Bear Rescue Center in West Yellowstone.
- Had a wonderful time and are looking forward to next year's trip
- Had a wonderful time. Grand kids (ages 6 and 9) thoroughly enjoyed Junior Ranger program - looked forward to the learning experience each day.
- Had the best malt ever at Lake Village soda fountain and a beautiful hike up Elephant Back Trail
- Hard on car brakes
- Hard to communicate with each other - little cell phone access
- Having a 10 year old with us it would have helped if we received a brochure of specific children's programs when entering the park. Programs were good but not discovered until reading after first day.
- Having hand sanitizers in outdoor restroom was great
- Hiker/biker campsites at Old Faithful
- Hot boiling springs - no high water. Why not open?
- I am not sure we would return - too many people, like Disneyworld
- I am old school. A park purist - from the old days. You would not (repeat: not) like my answers
- I appreciate the desire to make the ecology pure, but do not go so far as to allow such a buildup of predators (grizzlies and wolves) that people will not be able to experience the park in the wild in the future
- I enjoyed that there was a guest photographer at one of the gift shops
- I enjoyed what I saw; I will need to plan ahead and spend more time as our trip was a spur of the moment idea
- I go there to see a world that doesn't exist anyplace else I see. The animals and scenery are fantastic.
- I grew up picnicking in Yellowstone and it was fun to introduce my grandson to it for the first time
- I think some parking lots need to be expanded or monitored. We had to circle around in the Artists Paint Pots four time and still couldn't park our RV. All the cars took RV spots and blocked areas, which made it very difficult to turn. We couldn't fit into many handicapped spots, either.
- I think you should have more electric and water hookups for campers other than Fishing Bridge RV Park. Get rid of Xanterra.
- I very much appreciated the narrow roads (no shoulder), made me feel to be really inside the park, not driving through
- I was not able to find a single room for even a single night in any of the Yellowstone lodges through Xanterra. AAA travel told me this was because rooms were bought up and sold on EBay. I started looking 7 months before my trip.
- I was not pleased that your form is identified back to my name and address and I considered not sending it to you
- I was very disappointed because we thought we would see more animals
- I wish I would have known which landmarks smelled bad, so I could avoid them. I would have also liked more advanced "pit" toilets in some locations.
- I would have liked more information on hiking trails - where they were, difficulty and length
- I would like to have more trees on campgrounds and less rain and more service, free showers, more animals

- I would like to know which hikes we could take our 8 year old disabled child in a 3-wheel stroller. We have done Harlequin Fairy Falls, Lone Star, the Boardwalks. We'd like to know more options.
- I would like to see the forest areas better maintained - the government made a grave decision on how they did not manage the Pine Beetle - Shame on you!
- I would like to thank all of the hard workers that build and maintain the walkways and stairs so that we can enjoy so much of this incredible place. All of the workers everywhere should know how much we appreciate all of their hard work - thank you!
- I would love to camp inside the park, but I need electric service. I breathe with a CPAP machine. Would love to see full hookups.
- If staying at Fishing Bridge, showers should be included. Make other outside campers coming to site pay.
- Inadequate restrooms on geyser basins, viewing sights, rest stops, pullouts, etc.
- Incident at Canyon Corrals where wranglers ran 1/2 dozen bull bison through crowded parking lot. Very dangerous to people in parking lot. Wranglers were irresponsible!
- Increase the efforts to control the Lake trout population in Yellowstone Lake - and who is responsible
- Information from park rangers on different places was very appreciated.
- It is a beautiful part of God's creation. If you can't see God in Yellowstone NP, you won't see Him anywhere.
- It is a beautiful place
- It is beautiful - a picture every place you look
- It is beautiful. We hope we could have more time.
- It is hard to get a campground site even if you are already in the park and it is early in the morning
- It is very clean! Everywhere are restrooms, enough parking, mostly enough parking along the road, personnel in the gift store was very slow
- It seems like a lot less animals. I like to see a lot of animals when I come. Better street signs at Mammoth Hot Springs area.
- It was a brief drive through
- It was a good trip
- It was a great experience!
- It was a great park to visit, but at times it just felt so cramped because of the multitudes of people
- It was a most enjoyable and satisfying trip to see this part of God's creation; please don't let commercialism ruin it
- It was a wonderful experience. The park is well maintained and we really enjoyed the wildlife!!
- It was a wonderful trip for my wife and me as we hosted our grandson. It was great that the NP made visits to most of the sites available.
- It was a wonderful visit. We enjoyed the wildlife, but when it came to communication, it was frustrating.
- It was a wonderful visit. The bathrooms in the Grant Village Lodge could use some updating but just to make them feel cleaner, e.g. new grout at sinks.
- It was awesome, we love Yellowstone!
- It was awesome. One member took an independent study class from San Diego State University and the information in visitor centers and boards was informational and helpful. Information was presented at a reasonable level for all members to enjoy and learn.
- It was beautiful as always
- It was beyond expectations. The views, the animals, the roads.
- It was difficult to find lodging inside and outside the park.
- It was fantastic
- It was fantastic. One of the greatest places on earth. Ranger programs were great.

- It was great
- It was great fun
- It was great. I've waited 45 years for this experience and it was well worth it. The wildlife abundance is indescribable.
- It was one of best places I've even visited in my life. My family and I really enjoyed our brief visit. We want to return again.
- It was particularly difficult for us to find a hotel near the park. The only one hotel we could stay in was far from the park and too expensive for the quality of service provided.
- It was the first time we have been there and I loved it. My kids 15 and 11 enjoyed. We hiked Mount Washburn and hiked in the Tetons. I wish we could go back soon.
- It was very beautiful and enjoyed very much
- It was wonderful. I am considering applying to work in Yellowstone National Park next summer. If not work, then visit again.
- It was wonderful. The park is very clean and beautiful. The animals are fantastic. We will be back.
- It would be great if we could have gotten a map prior to getting to the park - better to plan maps are available online - but they are not the same
- It would be helpful to say in the brochure the best location to see animals, best view of Fall - for example which gives full view of Fall - you could have picture and say "view from "x" point". I missed seeing a full view of Yellowstone Falls - couldn't tell which overlook.
- It would be nice to provide free wheelchair for elders
- It'd be great if there were more animals and less people
- It's a great park
- It's a unique and marvelous place. Well sign posted, good parking and helpful guides/rangers.
- It's beautiful and breathtaking, even at its busiest. Lots to see and do. Would like to see some type of eco-friendly public transport offered from West Yellowstone.
- It's beautiful! I want to return before it goes super-volcano!
- It's great and we keep coming back
- Just a very enjoyable visit. We will be back.
- Karen was our "yellow bus" tour guide and she was excellent
- Keep the park location areas as is. Do not add or develop more. We loved the wildlife in the north and the geysers and quiet in the south part of park.
- Keep up the great work - I'll be back
- Liked the information that was given out when we first came into park. Loved the kids programs, need more of them.
- Locations need more specific description for emergencies
- Love camping at Bridge Bay with our group (have for years), but issues with the staff need to be addressed. Considering staying in West Yellowstone in future.
- Love it
- Love it
- Love the place
- Love the recycling. Limit noise levels of motorcycles. Why no campground at Old Faithful? More bicycle friendly (safety). Can you please limit the buffalo traffic control? Put up signs saying "viewing of wildlife prohibited from the road." Clean up the burnt trees.
- Loved how well the park was maintained
- Loved it and would like to go back. For children spotting animals was the most fun. It would be helpful to have more rangers with scopes.
- Loved it! Hope to be back!!
- Loved it. Back soon.

- Loved overall. Would like to see more casual coffee/sandwich places with fresh, high quality ingredients - less frozen/fried foods.
- Loved the park - amazing place. Admission charge is almost too reasonable - i.e. \$25 per week. I think \$2 per person per day would be fair and raise more revenue for park. Only service that was overpriced was Yellowstone Lake scenic tour. Should be about \$6-7 per person, not \$15.
- Loved the park and natural beauty, very clean, friendly folks to help
- Loved the thermal features and wildlife
- Loved the trip
- Loved visitor centers, ranger talks in the evening and drive along north rim; can't wait to come back with older kids and do more hiking
- Maybe, if you can organize trail (hard one) with rangers, because on our own is very hard because of the wildlife. So, we just did small trail.
- Missing signs announcing picnic area or other places ahead of time
- More benches and rails on boardwalks and trails, rides to the geysers that were far away at Old Faithful, and more notices on estimated Old Faithful times.
- More detailed maps on website on hiking and attraction areas.
- More hotels
- More restrooms in visitors areas like Old Faithful away from visitor centers, especially geyser and lake areas. Great area to visit - commercial services are well suited - do not detract from natural areas. Food choices good- local and fresh very important
- More than Old Faithful needs to be advertised. The canyon area was awesome and I didn't know anything about it until I started researching for trip.
- Most of my visits are short because I love so close, but occasionally stay at Cooke. I think YNP is a fabulous place, somebody does a good job taking care, Thank you.
- Most time hiking. Awesome.
- My friend from New York City was totally amazed. She loved all of it. We also had a great visit, but come several times a year.
- My husband and son thought the stagecoach tour was lack luster. All the bear warnings scared me to death - on our next visit I would stay at a lodge or hard-sided camper
- My husband grew up in Idaho and had never been to Yellowstone until this visit. He is now 63 years old. He loved it. We will be back soon, hopefully.
- My interest was in collecting every available passport cancelation. Hard to identify every possible location. Need a clear and accurate published list. West Yellowstone and Mammoth had differing lists. Other places had none.
- My wife and I are former employees returning for a visit after many years
- Need better restrooms at Tower
- Need better signage prior to the area to avoid fast breaking on roadway!
- Need more lodging closer to park entrance. Too much difficult driving involved.
- Need more parking
- Need more parking at Old Faithful
- Need more picnic areas. Need more parking at attraction sights. Signs and maps need to match.
- Need more picnic tables at pull-offs. Need more pull-offs for people viewing wildlife - caused some long traffic delays.
- Need to have more local and made in the USA items in gift shops
- Need to have more motels and good restaurant inside Yellowstone Park, like Mammoth

- Need to rent small scooter, jeep, etc., so people don't have to drive expensive gas motorhome all through the park. Gas was very expensive to go back and forth. I made reservation at Grant Village was nice, but for the early arrival had to stay outside the park. Also, wish you would rent scooters so motorhomes don't have to drive everywhere.
- Need to repaint directional signs
- Need to ticket cars parked in bus parking spots
- Need to widen roads to have a small shoulder on each side. Next time we will stay in park and not in nearby towns. Just too far to drive.
- Needs to be protected as a wonder of the world!
- Next time I would know what tours are available. We wanted to go on a tour, but it was booked up and we were not able to go.
- Nice job on Gibbon Falls. Mammoth needs better food, facilities. Nice job on roads - they needed it. Pave the Canyon Parking Lot, please. What are you planning for the old picnic area below Gibbon Falls? It's weird.
- Nice park
- No complaints, our visit was amazing as it always is
- No place to have a picnic unless you sit in the car. Provide better restrooms and picnic tables for visitors. No place to enjoy the park with a picnic lunch. Much better in for forest for creature comforts.
- None of signs in Canyon area say "Lower Falls" or "Grand Canyon of the Yellowstone." The sign "North Rim Drive" doesn't tell feature seen.
- Nope. All in all it was fantastic!
- Not at this time
- Not enough law enforcement or interpreters' presence. So incredibly beautiful.
- Not enough parking at Old Faithful and the Paint Pots
- Not possible to get a sleep place arrangement even 3-4 months ahead
- Obviously, we like coming to YNP or we wouldn't have visited about 1/2 times
- One in our group was very upset that the fishing in rivers was only for fly-fishing. Seems unfair.
- Other drivers were dangerous with sudden stops and pulling over quickly because of scenic views or animal sightings
- Other national parks should be so nice
- Our first trip - I don't know why we waited so long - see you next year. Would like to work one summer there when I retire. Thank God for the men who had vision and set all of this aside for America.
- Our guide/driver Melanie was excellent, very knowledgeable, accommodating, cares about Yellowstone. Foreign tourist were very noisy and rude should be given a list of common courtesy rules.
- Our vacation to Yellowstone was on of the top two vacations I/we have ever been on
- Overall a wonderful trip we will remember forever!
- Overall, great trip
- Overall, with the number of people going there, you do a heck of a job. Beautiful scenery.
- Park rangers and other staff were all very nice and knowledgeable. I hadn't been to Yellowstone since I was a kid and forgot how much there was to see and do. Next time, we'll plan a longer trip.
- Park rangers very kind considering ignorant people to deal with
- Park was beautiful. Animals were fantastic. Hotel facilities in and around park are prohibitively expensive and require "much" planning ahead of time.
- Park was crowded and overused. However, protection of features and wilderness areas was very good.

- Parking at Geysers very poor for motorhomes
- Parking at old Faithful was crowded and confusing. Thanks for all the clean restrooms. We loved the hiking and animal viewing; however, crazy people parked in middle of road to take photos.
- Parking seemed to be worse this trip compared to previous visits. Also, seemed to be more RVs and trailers.
- Parking with RVs is difficult. Parking lots are missing and if available, then often used by other vehicles. Shuttle buses like in Glacier National Park would be helpful.
- Pave all the turnouts! Gravel doesn't get it, too unsafe for motorcycle use
- People are dangerous because they are always unaware that the park is a "wild" place and not a zoo
- People need to know that the best time to visit is in the middle of the week
- Personnel at Canyon Camp office didn't tell me I could reserve campsites in other areas. Wasted most of a day driving around looking for campsites.
- Picnic areas closed, no RV camping
- Plan to come back every 3-4 years
- Please develop good (multi-lingual) online information systems in the developed areas of the park
- Please do not add any more services or structures in the park. Please keep as primitive as possible.
- Please get more informative signs
- Please keep things the way they are - a minimum of biking, cycling, boating, climbing, etc., to preserve wildlife
- Please keep working on repairing the asphalt roads - I would be willing to pay \$5 more for this
- Please make a bike lane or put signs up that they must share the road with bikes
- Policy makes the park into a pseudo-wilderness. The parks history needs to be emphasized more. Humans make parks, not nature.
- Provide more information to uneducated visitors on wildlife - distance to stay away from, how to park when pulling over to view wildlife
- Public bathrooms at Upper and Lower Falls need attention
- Public outhouses were universally awful - dirty, crowded, urine on floor, etc.
- Put some fast food restaurants inside Yellowstone NP
- "Q 14 note: I am only giving expenditures for our visit to Yellowstone Park, not what we spent on our entire annual vacation to this area - that would be too time consuming.
- I love visiting Yellowstone - just had difficulty finding Morning Glory Pool
- "Q11: would like to have Asian vegetarian food available
- Yellowstone NP is not as well known in India, unlike Grand Canyon of Niagara; more publicity is needed"
- "Q3: Signs to Lower Falls inadequate, all others okay
- It was a wonderful visit! Rangers (met 2) informative and friendly. Only complaint - we had problems finding the Lower Falls - no signs on road, signs we did see were confusing"
- Quite beautiful. Put recycle bins close to trash bins. Need more handicap spots.
- Ranger-led programs and interpretive programs were excellent. Junior ranger program very well done. Have Wi-Fi at key facilities that can provide interpretive information via I-pad, I-phone application (in language of choice). Or use QR codes to allow visitors to pick up information that way.
- Rangers at both entrances were very helpful and professional
- Rangers doing an excellent job!!
- Rangers should be informed that there is a wheelchair access guide. Access guide could be improved to indicate where there are stairs, specifically as differentiated from steep or uneven ground.
- Rangers speak French, viewing wildlife, boardwalk/geyser basin

- Rangers were friendly and helpful; liked park so much, we went there on return trip, different entrances; will look into guided tour opportunities on next visit, not very aware of their availability, will check later.
- Really sad to see the condition of the Mammoth Cabins. Very upset about service and food at Mammoth dining room.
- Really, just the food needs improvement
- Recycling should be available everywhere there are trash receptacles. Ranger-led programs were great. We plan to return to YNP in a few years
- Residents close to park should receive annual pass and/or discounts. Restrooms were atrocious, littered with paper and trash.
- Road Scholar program (All park fees and accommodation/food covered by the purchased deal, except one day on our own)
- Road signs not big enough. Too few toilets in the restrooms. Had to queue for a long time.
- Roads are narrow and winding. We drove a Class A motorhome in and out of park. Very dangerous when bicycles are on narrow roads.
- RV parks cannot accommodate many large RV's. Roads are dangerous and many have no guard rails. Pullouts often drop off roadway due to repaving.
- RVs everywhere. Perhaps consider an alternative driving route for truckers/RVs.
- Saw wonderful things and had a fabulous time
- Scenery, wildlife, geysers, etc., made it a very nice trip despite poor value of services
- Shorten your Junior Ranger program. The exhibit Albright Visitor Center seems old. Update the video at Albright Visitor Center. Clean bathrooms.
- Signal Mountain Lodge needs to cut the grass/weeds around the cabins to diminish the overwhelming mosquito attacks once you walk out your door. You cannot even bear to be outside. No other area of the park was even close to this miserable.
- Signs for "public" telephones
- Some hiking trails need to be kept clear of fallen trees and overgrowth of bushes
- Some people cannot manage a week's trip - perhaps a one or two day options should be available
- Some sights had a Disneyland feel which we did not like
- Something needs to be done about people stopping in the road
- Spectacular scenery, etc. Clean, toilets excellent. Lack of wildlife! Would have liked to hire wheelchair at park entrance, or individual attractions.
- Surprised with power boats used inside this national park
- Tell people to bring binoculars and spotting scopes. Cafeteria selection and quality needs to be improved at Canyon.
- Thank you
- Thank you for all the volunteers who helped us have a great and safe trip
- Thank you for the junior park ranger activities and the attention the children get from the rangers. Our visit was amazing, we'll be back.
- Thank you. It was a privilege to visit such an amazing place.
- Thanks for asking via this survey - compared to visit last year, food was better at Lake Lodge this year
- Thanks, it was great
- The buildings in the lake area need a little updating. If I'm going to pay over \$200 a night its expected to be updated. Canyon cabins had a better presentation for less money

- The campgrounds were full, we could not use your services - GET MORE CAMPING SPACES!!! Need more parking. Signs further away from turns. Enforce parking rules. Cars took RV spots and parked on shoulders preventing other vehicles from driving on roads and getting to parking areas.
- The choices for food is really few though it's same as other national parks. Variety of foods helps us US national parks to improve much better. Choice: American, pizza, salad, sandwich.
- The covered wagon trip out to the cookout was SPLENDID! Otherwise it was just amazing natural wonders!
- The entry people could be more friendly. It sets a tone for the park.
- The experience exceeded our expectations. We will certainly come visit again. The only negative experience we had was using very smelly port-a-potties. Thank you.
- The fee for entrance is too high. Should be a one-day fee or pass.
- The fly fishing sport looked intriguing
- The guide should stop soliciting for tips at the end of the boat ride (scenic). You can place a box where the tips can be dropped.
- The lodging in the park was disappointing; clean beds but the cabins need to be modernized, renovated or new, 1950's condition
- The mainstays (Old Faithful, Mammoth Springs, Canyon Village, for example) were just the right amount of distance in between them to see great views and get to your next destination
- The national park service does a good job
- The park is beautiful. We love it.
- The park is fine. Cell phone range would be nice, though
- The park needs better restrooms at the campgrounds. Also, more showers and laundry facilities. Canyon needs an RV dump station, too.
- The park rangers were excellent. We were very concerned about the waste of plastic in hotels outside the park, e.g. plates, cutlery, Styrofoam cups. Yellowstone is world famous, so surrounding towns, e.g. West Yellowstone and Bozeman, should not be throwing away so much plastic. It's a bad look.
- The park was beautiful
- The park was very clean, but could use more signs telling of coming attractions
- The park was very clean. No television is a good idea. Please limit commercial services to those that exist now.
- The place is incredible. I will be back.
- The price and availability of food and lodging doesn't live up to Yellowstone National Park reputation
- The roads are inadequate for the traffic
- The roads are sufficient for travel, but not for random pull-offs to observe wildlife. Dangerous also, create traffic delays. Ironic.
- The Roosevelt Cookout/Wagon ride was the most enjoyable activity that we participated in! Very well done!
- The scenery coming into the northeast entrance and looping back to Cody was awesome. Very beautiful.
- The selection in Yellowstone groceries was inadequate and too expensive
- The three of us were on motorcycles and \$20 per person seems a bit high. If the three of us had been in one car, the cost would've been considerably less.
- The toilets were horribly dirty in the non-developed areas. We would have liked to know the animals' migration pattern so we could have seen more wildlife.
- The traffic congestion was at times overwhelming
- The Young Scientist and Jr. Ranger Programs were great! Park rangers were very, very good, patient and helpful! Learning about the Caldera was a lot of fun! Thank You!

- There are enough commercial services in the YNP - anymore will make the place too much like an amusement park - keep it wild
- There should be many more picnic tables available near Old Faithful. There is so much information available, but it was really not clear which site or outlook was where. Beauty everywhere. We had a wonderful time and love this national treasure.
- There's enough segregation problems without you putting people in that position with your questions
- Things I don't appreciate: dogs, bad drivers, tail-gaiters, speeders, people passing, need more traffic patrol. Things I do appreciate: your employees are friendly. Thank you.
- This is America - the language is English, don't try to change it
- This is the BEST park in the USA. We will be back next year with friends
- This was a wonderful experience. I will return to Yellowstone. I brought my grandsons and they loved it. I will bring my other two grandsons when they're older.
- This was an amazing place, very well sign posted with generous and kind staff
- Too many pets
- Took lots of pictures. Saw all wildlife, except moose. Fun trip.
- Traveling with 2 grandchildren, a great nature experience
- Try to keep/renovate the older buildings, add additional historical features. Campground at Bridge Bay (in the middle) could use more trees
- Upper terrace at Mammoth needs attention regarding road
- Very clean; beautiful; would like either cell phone coverage or emergency call boxes along the roads. More wayside rests with bathrooms.
- Very enjoyable
- Very enjoyable
- Very enjoyable experience. We loved the scenery and hospitality, and the wildlife.
- Very impressive
- Very impressive. Would love to come back and allow more time to see everything at a slower pace.
- Very nice trip
- Very well organized, educational. Easy to get around and get information.
- Visit to park was fun and relaxing
- Was great. Not as touristy packed as I thought it would be.
- Way too crowded. Too many giant camper buses. Limit number allowed in park at one time and limit size of vehicle allowed on roads. Need more buses like Glacier.
- We always have a great time! The cost of lodging has increased too much
- We are from the Netherlands and visit this park because we where curious about this park
- We are very proud of this park. We have brought youth here and other friends to see this wonderful place. Thank you. We will be back. God bless America and this great park.
- We brought our dog with us. Before coming we inquired on the website www.ups.gov/yell and it stated that dogs were allowed on trail, but almost everywhere we went they had no dog signs. This was very misleading.
- We completely underestimated how long it would take to reach the various locations within the park, which meant we were unable to see as much as we planned - we hope to visit again someday
- We could have used restrooms marked on the map so we could plan ahead on longer drives
- We did a day hike from Biscuit Basin to the overlook and to Mystic Falls. The trail signs were not helpful, so we were, at times, guessing which path.
- We did not spend as much time in the park as we thought we would because there were way too many people. No place to park with the crowds.
- We did see a bear between Tower and Mammoth.

- We didn't have enough time to spend there, so we would like to come again sometime
- We didn't realize that it took so long to drive from point A to point B. This place is huge. Awesome. We thank God for making it and thank the National Park Service to preserve it.
- We drove through the park to Cody, WY. We encountered bicyclist on narrow roads, which impeded traffic, and motorists that obstructed traffic stopping in areas that were too narrow to allow passing.
- We encountered a ranger at a Dunraven Pass "bear jam" who handled the ever-increasing crowd with skill, patience and tact. Great guy - we were most impressed. Loved the park.
- We enjoy the visit. We are excited about the park. Thanks for all things. Keep it wild.
- We enjoyed it very much. Awesome.
- We enjoyed it. Forgot how big it is. Would like to plan it better personally to see all the sites.
- We enjoyed meeting and speaking with John Collins (maintenance department) at Yellowstone National Park
- We enjoyed our trips to Yellowstone. We appreciated how the trees are allowed to complete a natural cycle of a tree - birth to decomposition to return to the earth. The ranger explained it was better for forest. Even fire helps to open seeds to sprout.
- We enjoyed our visit
- We enjoyed our visit. The scenery was magnificent. Access was very good - roads and directions. Park personnel professional, friendly and knowledgeable. We intend to return.
- We enjoyed the improvements made to the park since our last visit 3 years ago
- We enjoyed touring the park!
- We experienced numerous cars stopping in middle of road to take pictures of wildlife. Also, lack of rangers keeping individuals and children safe and following rules.
- We feel that the National Parks are way underfunded by the federal government
- We felt some of the roads in the park could have been marked better. Road name signs would help. We went the wrong way at least twice.
- We felt waterfalls could be used to power electricity for the park. Generators could be hidden and never change the scenery.
- We go every other year - we used to camp with camper but couldn't afford gas so stayed at \$50 accommodations at Cody. More maintenance on facilities as some are run down
- We had a fabulous time. Sights were beautiful. We were fortunate to see a lot of wildlife.
- We had a good time. Wished we had seen more animals.
- We had a good visit, beautiful wildlife and views. It's regretful that not all visitors have the good behaviors/manners with respect to the animals and other humans.
- We had a great time
- We had a great time, saw a lot of wildlife. Kids learned a lot and had fun. So glad we were able to overnight in park.
- We had a great time! It was a treat to see a grizzly along with so much other wildlife
- We had a great time! Thanks!
- We had a great time. Traffic congestion and lack of ability to park was hard, but I wouldn't want more of that either. Nature is too beautiful to develop further. Overall, I thought that NPS did a great job balancing necessary development via park natural resources. There was also a lot of easily accessible with children and it was not that hard to get away from crowds once at a location.
- We had a wonderful experience and hope that more Americans start visiting Our Beautiful National Parks!
- We had a wonderful time again. Wish we could have seen more wildlife. Have to come earlier in year, or later.
- We had a wonderful time and are excited to return someday

- We had hoped to see more wildlife. We only saw a snake - not the park's fault. That's life.
- We happened upon a "Wolf Project" group, which was in the process of spotting a wolf. The next time we are in the park I will try to hook up with them earlier.
- We like the way to protect environments. Most of services are better than expected. It will be great to have Asian style food services or restaurants.
- We live 80 miles from the West entrance to the park so we have the opportunity to visit often. We love seeing the wildlife and the beautiful scenery - Don't change things
- We live in Livingston and have an annual pass, so questions like 9a - "Did you visit Old Faithful?" apply to some of our day trips, but not others. Sometimes we spend money in park but yesterday did not.
- We love and enjoy the park. It is difficult to secure desired lodging - we planned 9 months in advance.
- We love it all four seasons
- We love it. Go several times, except winter, a year.
- We love the Jr. Ranger program and the Young Science Program
- We love Yellowstone National Park and Grand Teton National Park. We love to animal watch, fish and hike.
- We loved it! The visitor centers are terrific.
- We loved our trip to Yellowstone and have told our family and friends that it is a trip they all should do
- We loved our visit and seeing the wildlife. Would love more shoulder areas on road to pull-off to see wildlife.
- We loved our visit to Yellowstone
- We loved the Junior Ranger program. You should collect on that service.
- We loved the Lamar Valley. Keep it undeveloped.
- We plan to return and spend much more time hiking and exploring
- We planned a small family reunion and chose the Yellowstone area because we had all wanted to go but had never been
- We read a lot about bears and what to do if we meet one, but we did not know what to do if we meet a wolf (and we did)
- We really enjoyed ourselves. Even though there are thousands of visitors, it does not seem like it. It is being kept natural.
- We really enjoyed the trip. Lots of beautiful sights and wildlife to view. Would love to do it again sometime.
- We saw 7 grizzlies. Rangers were there or arrived early to manage the bear jams, call back fisherman and observers in the area, and answer our questions in a pleasant and informative manner. Kudos to the park service.
- We saw lots of road maintenance with "loads" of stonework. Let's keep the park safe and beautiful without getting too gaudy. Keep it simple.
- We stopped at the south entrance and the gentlemen at the gate said I needed a new golden age pass. I had an old one with a wheelchair on it. It was a handicap pass. After leaving the booth I realized he gave me a regular golden age pass? What can I do about that pass?
- We stopped at the Visitors Center/gift shop by Old Faithful - wished the restaurant there stayed open later. Other than that we loved Yellowstone especially the scenery and want to go back.
- We think it is an awesome place and love driving and looking for wildlife
- We thoroughly enjoyed our visit and plan to come again
- We thoroughly enjoyed ourselves and plan on returning. We went on two Yellowstone bus tours - one with Nat from Pennsylvania and John out of Old Faithful lodge - both were excellent. Guides were informative, friendly, and you could feel their enthusiasm.
- We tried to get reservations 3 months in advance of our trip, however, no rooms were available

- We truly loved seeing all the scenery. We enjoyed seeing the animals, but wish we would have seen a wolf, black bear and moose.
- We went on a day hike to Heart Lake (7-28-11) and ran out of water. On the way back we met a female park ranger; she gave us her water and possibly saved us. We are very grateful and impressed by her actions.
- We were impressed by how organized and easy to maneuver the park is. Staff very friendly as well. We had a great experience.
- We were impressed with the beauty of the park. Impressed by geysers and warm springs.
- We were impressed with the Sunday morning worship service in Madison Campground. The Christian Ministry in the parks is a great college group of young people.
- We will return
- We will return - we had forgotten how long the drive is in the park - we were short on time and did not see/do much of anything
- We wish we'd had time to hike and stay all night there
- We wished we could have seen more wildlife. We had seen more on previous visits.
- We would have liked to have camped within the park, however, our RV could not be accommodated. Yellowstone should have a campground with full hookups and 50 amp service.
- We would have liked to rent a fishing boat, but \$50 an hour is ridiculous for a boat rental
- We would have liked to spend more time. We would also like to be able to swim in the rivers.
- We would like to see and know type of science and research on Yellowstone NP
- Temp of water of geysers, type of microorganism geyser's - like a Science Center
- We would need many more weeks to explore Yellowstone NP
- We, jokingly, say - You need to release the animals more frequently! We saw several elk and a few bison - but no bears, moose, or wolves on this trip! Rate the care and cleanliness of the park - A++!
- We'll be back!!
- Website was poor for planning suggested routes, hot spots and lodging activities - follow Disney to help families
- Well, pleased with operation of park. Keep up good work.
- While I understand the number of visitors makes it difficult to take much time with visitors, many of the visitor center's staff seemed disinterested and curt. The wildlife brigade folks were impatient and rude. They would force cars to pass agitated bison that were in the middle of the road with a drop-off on the other side. One car was rammed and sustained damage.
- Wish there were more lodging in the park; everything was booked or too expensive
- Wish we had had more time
- Wish we had had more time to spend there. Were unhappy with dining room at Old Faithful Inn - not nearly the quality of Lake Lodge dining room
- With a minor key problem, all options were not presented to me. This is a noncompetitive contract and not helpful to consumer.
- With regard to my answer to question 25, everything was very good except the price of the food was too high considering the quality of the food and the restaurants closed too early
- Woefully inadequate parking available at Grand Prismatic, Black Sands and others in the Upper/Midway Geyser Basins
- Wonderful
- Wonderful
- Wonderful family vacation. Yellowstone National Park employees were friendly and helpful.
- Wonderful holiday!
- Wonderful park. Very nice and helpful rangers and other YNP coworkers. We'll be back!

- Would like you to consider overflow camping, perhaps in parking lots. We would have spent another day while in the park.
- Would love if the park opened up its cliffs to rock-climbing
- Would really like to see more accessibility in the form of footpaths (paved) in places like the lower falls. That wounded veterans miss out on this breaks my heart.
- Yellowstone has been in my vacation plans since 1992; the campgrounds have fallen behind. That is our park and efforts need to be made to meet the growing number of older campers. Electric sites would stop need of generators
- Yellowstone is magnificent. The greatest problem is the traffic congestion. Shuttle buses would eliminate animal injuries, congestion for photographic opportunities and pollution problems. Yellowstone would rate #1 for variety and diversity. I've been to about 30 parks.
- Yellowstone National Park does a wonderful job managing a huge volume of visitors. We enjoyed the many picnic pullout areas as we drove the park.
- Yellowstone National Park website not good. You need a "top ten things to see" link with pictures and maps of those places. Have a weather.com link. Your map should be more interactive so you can click on an area and see the nearby geysers, stores, visitor centers, etc.
- Yellowstone NP is a magical place for us. We just can't get enough of it. We arrived in June and will leave in October and return in January/February
- Yes, I remembered the eruption clock in Old Faithful Lodge from when I was eleven years old.
- Yes, the park seems to center now around motor homes, throngs of people and no longer the wildlife and land that it was originally set aside to protect. There needs to be more rangers to ticket speeders. That way more animals would be saved.
- Yes, we would like to know what is available to see at each location. No internet so we could not look up. Bought a CD/book with information but only a few places mentioned.
- YNP maps inadequate. Bought Trails Illustrated map, but still wanted more detail. No off-road bicycle trails. Traffic congested at most parking facilities
- YNP needs to be all Wi-Fi friendly, 3G friendly
- You need better traffic controls within Old Faithful site
- You need more RV camping sites with electric hookups
- Younger rangers are not as courteous or helpful as they should be. We were not aware of the many organized activities that are available in the park.
- Zero construction, roads were great

Appendix 1: The Questionnaire

Appendix 2: Additional Analysis

The Visitor Services Project (VSP) offers the opportunity to learn from VSP visitor study data through additional analysis. Two-way and three-way cross tabulations can be made with any questions.

Below are some examples of the types of cross tabulations that can be requested. To make a request, please use the contact information below, and include your name, address and phone number in the request.

1. What proportion of family groups with children attends interpretive programs?
2. Is there a correlation between visitors' ages and their preferred sources of information about the park?
3. Are highly satisfied visitors more likely to return for a future visit?
4. How many international visitors participate in hiking?
5. What ages of visitors would use the park website as a source of information on a future visit?
6. Is there a correlation between visitor groups' rating of the overall quality of their park experience and their ratings of individual services and facilities?
7. Do larger visitor groups (e.g., four or more) participate in different activities than smaller groups?
8. Do frequent visitors rate the overall quality of their park experiences differently than less frequent visitors?

The VSP database website (<http://vsp.uidaho.edu>) allows data searches for comparisons of data from one or more parks.

Appendix 3: Decision Rules for Checking Non-response Bias

There are several methods for checking non-response bias. However, the most common way is to use some demographic indicators to compare between respondents and non-respondents (Dey 1997; Salant and Dillman 1994; Dillman and Carley-Baxter 2000; Dillman, 2007; Stoop 2004). In this study, group type, group size, age of the group member (at least 16 years old) completing the survey, whether the park was the primary reason for being in the area, and respondent's place of residence were five variables that were used to check for non-response bias.

Two independent-sample T-tests were used to test the differences between respondents and non-respondents. The p-values represent the significance levels of these tests. If the p-value is greater than 0.05, the two groups are judged to be insignificantly different.

Chi-square tests were used to detect the difference in the group types, whether the park is the primary reason for being in the area, and respondent's place of residence. The hypotheses were there would be no significant difference between respondents and non-respondents in terms of who they travelled with, why they were in the area, or where they came from. If the p-value is greater than 0.05, the differences are judged to be insignificant.

The hypotheses for checking non-response bias are: Respondents and non-respondents are not significantly different in terms of:

1. Average age
2. Number of people they were travelling with in a personal group
3. Type of group which they were travelling with
4. Primary reason for travelling to the area
5. Proximity from home to the park

As shown in Tables 3-6, respondents and non-respondents were not significantly different in terms of group size, group type, primary reason for travelling to the area, and proximity from home to the park. The p-value for respondent/non-respondent average age is less than 0.05, indicating a significant difference between respondents and non-respondents. In regard to age difference, various reviews of survey methodology (Dillman and Carley-Baxter 2000; Goudy 1976, Filion 1976, Mayer and Pratt Jr. 1967) have consistently found that in public opinion surveys, average respondent ages tend to be higher than average non-respondent ages. This difference is often caused by other reasons such as availability of free time rather than problems with survey methodology. In addition, because the unit of analysis for this study is a visitor group, the group member who received the questionnaire may be different than the one who actually completed it after the visit. Sometimes the age of the actual respondent is higher than the age of the group member who accepted the questionnaire at the park. The results indicate younger respondents may be underrepresented but overall non-response bias is judged to be insignificant.
