

Washington State University

Transfer Center

About Us

The WSU Transfer Center provides resources and support to students with transfer credit to help ensure equitable pathways and successful transitions to a Washington State University degree.

More than 80% of WSU students across our six campuses have earned transfer credit! WSU provides support to our students with their transition and pursuit of a WSU degree.

How to Transfer Credit

Official transcripts are required from every college you have attended. This applies to both transfer applicants and first-year applicants with dual credit, Running Start, College in the High School, or other college credit earned while attending high school.

Your final transcript must be submitted to WSU Admissions in one of the following methods:

- Mail
- Electronic via vendor

Regardless of how your transcripts are sent, please allow several business days for Admissions to update your student file. You will be notified by email when your transcript has been received.

****The Office of Admissions will accept unofficial transcripts for the admission process, but official college transcripts must be submitted once final grades and/or degrees are posted.**

Our Tools

TRANSFER COURSE SEARCH TOOL

The Transfer Course Search tool assists with planning the transfer of courses to WSU. Updated equivalencies are always being added, and the information is subject to change.

EVALUATE MY TRANSFER CREDIT TOOL

The Evaluate My Transfer Credit Tool allows you to submit all of your transfer courses and exam credit at once and create an unofficial WSU transfer credit evaluation.

COURSE EVALUATION REQUEST FORM

The Course Evaluation Request Form can be used if you identify a transfer course in the search tool that does not have a direct equivalency, it has an expired date, or you would like it evaluated for another WSU course or requirement.

1:1 APPOINTMENTS

Have more questions? Scan the QR code below or visit our website to schedule an appointment to meet with one of our staff members.
