

WASHINGTON STATE UNIVERSITY

College of Agricultural, Human, and Natural Resource Sciences

MS Graduate Assistantship

*Washington State University, Department of Crop and Soil Sciences
Irrigated Agriculture Research and Extension Center (WSU-IAREC)*

More information about the center: <https://iarec.wsu.edu>

Location: Prosser, WA

Description of the Opportunity:

The Weed Science program at WSU-IAREC in Prosser, WA, is seeking a motivated student with interest in Applied Weed Science for a Master's student graduate assistantship. The candidate will conduct field, greenhouse and lab experiments with focus on integrated weed management in vegetable and specialty crops in Columbia Basin region of Washington State. The candidate will also organize and assist in field operations, participate in extension education programs, prepare research reports & peer-reviewed publications, as well as present scientific findings at regional and national meetings, etc.

Desired Qualifications:

The applicant must have a bachelor's degree with a strong academic record in plant science, agronomy, or a related field. Strong written and oral communication skills and previous field and greenhouse experiences are preferred.

Closing date of competition: Open till a suitable candidate is found

Date position available: Fall 2023, negotiable

Contact for additional information: Dr. Rui Liu, rui.liu@wsu.edu

Application Process: Send CV and cover letter, describing your background and research interests, via email to rui.liu@wsu.edu. After initial screening, the prospective student will submit an application to the WSU Graduate School. The application requirements and link are found here: <https://css.wsu.edu/graduate-studies/how-to-apply/>.
