--REQUIREMENTS--

The requirements listed below reflect the undergraduate major curricular changes approved by the Catalog Subcommittee since approval of the last Undergraduate Major Change Bulletin. The text under the heading titled *Proposed* will show strikethroughs for deletions, and underlines for additions, as needed. Note: Items marked {S} have been streamlined and do not require Catalog Subcommittee review.

Dept	Proposed	Effective Date
Agricultural and Food Systems Revise graduation requirements, correct a prefix, and revise language for Rule 53 for Bachelor of Science in Agricultural and Food Systems - Agriculture and Food Security.	**Agriculture and Food Security (120 Hours)** Students in this major are the protectors of the world's plant-based food supply. The Agriculture and Food Security major prepares students to manage plant pests and diseases from a holistic perspective. Students learn to understand the complexity of relationships within agricultural ecosystems, how external factors influence these systems, and how to effectively manage pests and diseases without incurring undue risks to human or environmental health. Course offerings begin with a strong scientific base in biology and chemistry, and expand to focus on crop science, soil science, integrated pest management, and plant pathology. The major is an exciting blend of classroom instruction and field experience that is tailored to the eventual employment goals of the student. Graduates who can evaluate and diagnose pest and plant disease problems and recommend economically and ecologically sound ways to correct them are in great demand. Excellent employment opportunities exist with state, federal, and international agricultural, environmental, and regulatory agencies, agrichemical companies, agricultural and environmental consulting firms, food processing, forest product, and vegetable and seed companies, and a wide range of other agribusiness enterprises. A student may be admitted to the Agriculture and Food Security major upon making their intention known to the department.	8-20

Agricultural and Food Systems
Revise graduation requirements, correct a prefix, and revise language for Rule 53 for Bachelor of Science in Agricultural and Food Systems - Agricultural and Food Business Economics.

Agricultural and Food Business Economics (120 Hours)

The Agricultural and Food Business Economics major gives students what they need to succeed in the food and agricultural business world – knowledge of business and economics practices as well as a deep understanding of animal, plant, and food systems. Graduates in this major are highly qualified to fill positions ranging from market researcher to product analyst to food broker in a variety of venues, including private industry, commercial farms and ranches, government agencies, production agriculture, and universities. A student may be admitted to the Agricultural and Food Business Economics major upon making their intention known to the department.

Agricultural and Food Systems Revise graduation requirements, correct a prefix, and revise language for Rule 53 for Bachelor of Science in Agricultural and Food Systems - Agricultural Technology and production Management.	**Agricultural Technology and Production Management (120 Hours)** Students in this hands-on major gain a science-based overview of agriculture and food systems, with an emphasis on the practical application of technology to agricultural production systems. The program combines students' inherent creativity and interest in physical and biological sciences, technology, mathematics, business, and related subjects with their desire to develop innovative solutions to a variety of agricultural problems. Areas of application include precision agricultural operations and services, management of agricultural businesses, production operations, sales, and promotional work in domestic and international agricultural communities. Graduates are prepared to own, operate, and manage their own enterprises or to provide services for private or governmental entities. A student may be admitted to the Agricultural Technology and Production Management major upon making their intention known to the department.	8-20

Chemical Engineering and Bioengineering Correct the Footnotes (FN) in the Bachelor of Science in Chemical Engineering - General Option [UPMCB 12 Sp 2019].	**Chemical Engineering - General (124 Hours)** **Correction:** Correct the Footnotes (FN) in the Bachelor of Science in Chemical Engineering - General Option so the credit requirements listed in the FN match the changes made in the 4-yr schedule of studies on UPMCB 12-Spring 2019. [1] CHE Electives (~~9~~ <u>6</u> credits): Any 400-level course not used to fulfill major requirements. A maximum of 3 credits is allowed in CHE 488, 495, and 499 combined. [2] Technical Elective (~~3~~ <u>6</u> credits): MSE 201 or any 300-400-level BIO ENG, CHEM, CHE, CE, E E, ENGR, MATH, ME, MSE, or PHYSICS course as approved by advisor.	**8-19**
Communication Revise graduation requirements and Rule 53 language for Bachelor of Arts in Communication and Society - Communication Technology majo~~r~~	**Communication Technology (120 Hours)** ~~Certification~~ <u>Admission</u> Requirements ~~To certify any major in the College of Communication, a student must meet the following minimum requirements: (1) Complete COM 101, 102, 105, and 138; (2) Sophomore standing (transfer students should have at least 15 graded credits from courses in residence at WSU); (3) Complete the Murrow~~	**8-20**

College Grammar and Writing exam administered by the College of Communication.

Certification in the Murrow College is based on the following: the number of available seats, the applicant's cumulative WSU GPA, the number of credits completed at the time of application, and the applicant's performance on the Murrow College Grammar and Writing Exam. The top students are certified based on the number of seats available that semester. Transfer course grades will NOT be used to calculate the cumulative WSU GPA. Students transferring into the College with 55 or more hours should complete the certification requirements within two semesters. All students should certify before earning 90 credit hours.

All Communication and Society majors require a minimum of 52 semester hours in Communication.

Students are admitted directly into their desired major in the College of Communication upon admission and enrollment at Washington State University.

To remain admitted in any major in the College of Communication, a student must complete all required courses and remain in good academic standing. COM 300 must be completed with a C or better, and only two attempts are allowed and a "W" is counted as an attempt. With an appeal to the department chair, a student may request to take COM 300 for a 3rd attempt during a summer session. All pre-requisites must be met in order to move through the Murrow curriculum. If a student fails to complete the required curriculum, they will not be able to remain admitted in the Murrow College. If a student is failing to complete academic requirements in a reasonable timeline, an advisor will work with the student to identify another academic path. Students must remain in good academic standing in order to graduate with a degree from the Murrow College.

Direct to Degree for Transfer Students

Transfer students who indicate a Murrow major as their academic interest, and have completed an AA/DTA from a Washington community college with a 3.2 or higher transfer GPA, can certify upon enrollment at new student

~~orientation if they are transferring one of the required certification courses. Students who transfer in as a junior to WSU from another college or university may also be eligible for direct certification following consultation with a Murrow advisor.~~

<u>Transfer students bringing in 30 or more semester credits from an outside institution, and a 3.0 or higher transfer GPA will be directly admitted into the Murrow College. After consulting with a Murrow academic advisor, a student transferring with junior status (60 or more semester credits), with a 3.0 or higher transfer GPA, and who has completed COM 101 or COM 105 from another institution, will be allowed to take COM 300 in their first semester at WSU with all remaining 100 level required communication courses. All transfer students are required to consult with a Murrow academic advisor prior to enrollment at WSU.</u>

Communication Revise graduation requirements and Rule 53 language for Bachelor of Arts in Journalism and Media Production - Broadcast News major	# Broadcast News (120 Hours) ## ~~Certification~~ <u>Admission</u> Requirements ~~To certify any major in the College of Communication, a student must meet the following minimum requirements: (1) Complete COM 101, 102, 105, and 138; (2) Sophomore standing (transfer students should have at least 15 graded credits from courses in residence at WSU); (3) Complete the Murrow College Grammar and Writing exam administered by the College of Communication.~~ ~~Certification in the Murrow College is based on the following: the number of available seats, the applicant's cumulative WSU GPA, the number of credits completed at the time of application, and the applicant's performance on the Murrow College Grammar and Writing Exam. The top students are certified based on the number of seats available that semester. Transfer course grades will NOT be used to calculate the cumulative WSU GPA. Students transferring into the College with 55 or more hours should complete the certification requirements within two semesters. All students should certify before earning 90 credit hours.~~ ~~All Journalism and Media Production majors require a minimum of 52 semester hours in Communication.~~ <u>Students are admitted directly into their desired major in the College of Communication upon admission and enrollment at Washington State University.</u> <u>To remain admitted in any major in the College of Communication, a student must complete all required courses and remain in good academic standing. COM 300 must be completed with a C or better, and only two attempts are allowed and a "W" is counted as an attempt. With an appeal to the department chair, a student may request to take COM 300 for a 3rd attempt during a summer session. All pre-requisites must be met in order to move</u>	**8-20**

through the Murrow curriculum. If a student fails to complete the required curriculum, they will not be able to remain admitted in the Murrow College. If a student is failing to complete academic requirements in a reasonable timeline, an advisor will work with the student to identify another academic path. Students must remain in good academic standing in order to graduate with a degree from the Murrow College.

Direct to Degree for Transfer Students

~~Transfer students who indicate a Murrow major as their academic interest, and have completed an AA/DTA from a Washington community college with a 3.2 or higher transfer GPA, can certify upon enrollment at new student orientation if they are transferring one of the required certification courses. Students who transfer in as a junior to WSU from another college or university may also be eligible for direct certification following consultation with a Murrow advisor.~~

Transfer students bringing in 30 or more semester credits from an outside institution, and a 3.0 or higher transfer GPA will be directly admitted into the Murrow College. After consulting with a Murrow academic advisor, a student transferring with junior status (60 or more semester credits), with a 3.0 or higher transfer GPA, and who has completed COM 101 or COM 105 from another institution, will be allowed to take COM 300 in their first semester at WSU with all remaining 100 level required communication courses. All transfer students are required to consult with a Murrow academic advisor prior to enrollment at WSU.

The top students are certified based on the number of seats available that semester. Transfer course grades will NOT be used to calculate the cumulative WSU GPA. Students transferring into the College with 55 or more hours should complete the certification requirements within two semesters. All students should certify before earning 90 credit hours.~~ ~~All Strategic Communication majors require a minimum of 49 semester hours in Communication.~~ <u>Students are admitted directly into their desired major in the College of Communication upon admission and enrollment at Washington State University.</u> <u>To remain admitted in any major in the College of Communication, a student must complete all required courses and remain in good academic standing. COM 300 must be completed with a C or better, and only two attempts are allowed and a "W" is counted as an attempt. With an appeal to the department chair, a student may request to take COM 300 for a 3rd attempt during a summer session. All pre-requisites must be met in order to move</u>	**8-20**

through the Murrow curriculum. If a student fails to complete the required curriculum, they will not be able to remain admitted in the Murrow College. If a student is failing to complete academic requirements in a reasonable timeline, an advisor will work with the student to identify another academic path. Students must remain in good academic standing in order to graduate with a degree from the Murrow College.

Direct to Degree for Transfer Students

~~Transfer students who indicate a Murrow major as their academic interest, and have completed an AA/DTA from a Washington community college with a 3.2 or higher transfer GPA, can certify upon enrollment at new student orientation if they are transferring one of the required certification courses. Students who transfer in as a junior to WSU from another college or university may also be eligible for direct certification following consultation with a Murrow advisor.~~

Transfer students bringing in 30 or more semester credits from an outside institution, and a 3.0 or higher transfer GPA will be directly admitted into the Murrow College. After consulting with a Murrow academic advisor, a student transferring with junior status (60 or more semester credits), with a 3.0 or higher transfer GPA, and who has completed COM 101 or COM 105 from another institution, will be allowed to take COM 300 in their first semester at WSU with all remaining 100 level required communication courses. All transfer students are required to consult with a Murrow academic advisor prior to enrollment at WSU.

First Year

First Term	*Hours*
Biological Sciences [BSCI] or SCIENCE 101 [SCI][1]	3 or 4

Footnotes

[1] For a total of 7 credits—one Biological Science [BSCI] and one Physical Science [PSCI] course, including one lab course, or 8 credits of [SCI] designated courses. (SCIENCE 101 [SCI] is offered Fall semester and is a prerequisite for SCIENCE 102 [SCI], which is offered Spring semester.)

[2] A maximum of 12 credits of COM/COMJOUR/COMSOC/COMSTRAT 495/497/499 allowed towards 120 credits required for graduation. Consult with a Murrow advisor.

[2] Major Elective (3 credits): Select ~~3 credits of~~ a 300-400-level course from COM, COMJOUR, COMSOC, COMSTRAT major electives not used to meet other requirements, COM/COMSTRAT 495 internship credits, or COMSTRAT 499 Special Projects credits ~~(max. 6 credits of 495/499)~~ in consultation with advisor.

Honors College New certificate: Mindfulness-Based Emotional and Social Intelligence (MESI)	**Mindfulness-based Emotional and Social Intelligence** The Mindfulness-based Emotional and Social Intelligence (MESI) certificate is open to all students of the Honors College and offers a transformative program combining academic coursework, community engagement, and mindfulness practices to help prepare students for lives of personal and professional integrity and engagement. To earn the certificate, students must complete 15 or more credits distributed as follows: (A) 9 credits in identified MESI-related sections of HONORS 198, 270, 280, 290, 298, 370, 380, or 390; (B) 3 credits related to community engagement from HONORS 211, 212, 499 or – in connection with an Honors thesis or capstone project – HONORS 450; (C) 2 credits of workshops, practica or retreats offered in connection with the MESI program, including HONORS 201, 301 or others approved by an Honors advisor; (D) at least 1 additional credit from any of the above categories. A grade of C or better must be earned in each of the letter-graded courses applied toward the certificate. Students are strongly encouraged to work with an Honors College advisor to plan an appropriate schedule of studies. See an Honors College advisor for approval of each component of the certificate.	**8-20**
Women's, Gender, and Sexuality Studies Revise graduation requirements and change language for Rule 53 for Bachelor of Arts in Women's Studies.	**Women's Studies (120 Hours)** A student may be admitted to the women's studies major upon making their intention known to the program. The major in Women's Studies requires a minimum of 36 credits, of which 15 credits are required in the major, 12 credits are required in Field Electives, and 9 credits are required in	**8-20**

	Interdisciplinary Electives. 15 credits of electives must be at the 300-400 level. **Fourth Year** *First Term* *Hours* WOMEN ST Field Elective[2,3] 3 Electives[4] 12 *Second Term* *Hours* ~~WOMEN ST 403 [CAPS] or CES 489 [CAPS]~~ 3 <u>WOMEN ST 403 [CAPS] or 495 [CAPS]</u> <u>3</u> 300-400-level Electives[4] 13
