

MEMORANDUM**To:** Faculty Senate Steering**From:** Christine Horne**Re:** Faculty consultation for the DNP graduate to professional program change**Date:** November 9, 2022

In the October 27, 2022 Steering meeting members asked for information about whether faculty were consulted on the proposal to change the nursing doctoral program from a graduate to a professional program. I reached out to Craig Parks (who has positions in the provost's office and the Spokane campus and who is submitting the proposal for Nursing). He responded in two emails dated October 28, 2022 and November 4, 2022, saying that the change is a faculty-initiated plan, that Nursing has minutes from multiple faculty meetings in which this change was discussed, and that there is not recorded concern or dissent.

Christine Horne
Faculty Senate Chair
