MEMORANDUM

TO: Gayle Anderson, Faculty Senate

FROM: Graduate Studies Committee

DATE: March 11, 2020

SUBJECT: Recommending to approve a plan revision in the Graduate Certificate in
            Systems Engineering Management

On March 10, 2020, the Graduate Studies Committee recommended approval of the
major curricular change in the Graduate Certificate in Systems Engineering
Management. The revision will drop EM 569 Systems Architecting as a core
requirement due to low interest/enrollment in the department and replace it with EM
565 Introduction to Systems Management. See attached exhibit, "044 Systems
Engineering Management final packet 2-20-20 CSC 170."

Please add these to the Faculty Senate agenda as a discussion item.
