Hunter, Anita,

Griffin-Sobel, Joyce - Dean - Nursing,

Anita Hunter has submitted a request for a major curricular change.

**Requested change:** Revise or Drop Graduate Plan

**Degree:** Master's in Nursing

**Title:** Master's in Nursing: Population Health

**Requested Effective Date:** Fall 2019

Revise plan requirement: Yes

---

Both Chair and Dean approval is required to complete the submission process. Please indicate that you have reviewed the proposal by highlighting one of the statements below and **reply all** to this email. ([curriculum.submit@wsu.edu](mailto:curriculum.submit@wsu.edu).) [Details of major change requested can be found in the attached supplemental documentation]

1. I approve this proposal in its current form.
2. I approve this proposal with revisions. Revisions are attached.
3. I do not approve this proposal. Please return to submitter.

If you do not respond within one week, you will be sent a reminder email. If no response is received within three weeks of the submission date, the proposal will be returned to the submitter.

Thank you for your assistance as we embark on this new process. If you have any questions or concerns, please let us know [wsu.curriculum@wsu.edu](mailto:wsu.curriculum@wsu.edu).

## Master of Nursing in Population Health 2019 Proposed Changes

**Rationale:** The **current MN is out of compliance with the Master's Essentials for accreditation**. Currently the MN has 5 different curriculum options to obtain the MN degree MN: Education Track; MN: Leadership Track; MN: Population Health Track; MN: Generalist; MN in Passing for NP students. None of these options meet the accreditation criteria established by the Master's Essentials (AACN/CCNE 2015). The accreditation criteria indicate that all master's graduates have to have courses in nursing education, leadership, advanced patho/pharm/assessment, population health, etc. The current MN options divide education students to education courses only with no leadership or advanced assessment/patho/pharm content; leadership students have no education or advanced assessment/patho/pharm content; the population health students have no content in education or advanced assessment/patho/pharm content.

The **proposed curriculum** for the **MN in Population Health will now meet accreditation criteria** and hold the CON in good stead with reaccreditation visits by CCNE in April 2019. The MN revision eliminates all the individual MN specialty tracks (though certificate options are still available), uses the same courses previously approved for the MN degree (these have been submitted to the Registrar for major course curricular changes in course descriptions, student learning outcomes, and in some cases title and course credit change). The proposed degree program changes will not affect the faculty, students, CON, nor any campus where the MN courses are taught or received. No new courses have been added.

## Master of Nursing in Population Health 2019 Proposed Changes
