

MEMORANDUM

TO: Faculty Senate

FROM: Becky Bitter, Sr. Assistant Registrar

DATE: January 15, 2015

SUBJECT: Minor Change Bulletin No. 5 – Compilation of “Course Typically Offered” Information for the WSU Catalog

In coordination with the colleges and the Provost’s Office, the Registrar’s Office has compiled the following information which shows when classes are typically offered, by term and by campus. This information has been added to the catalog. In the future, the typically offered information will be an important part of the effort to enrich the My Planner in zzusis, a tool that will allow students to forecast their academic plans and pre-populate future terms with the courses they wish to take.

See the end of this document for more information about how this is presented in the [browse catalog](#) view in zzusis as well as in the [online catalog](#) at the university catalog homepage.

The online catalog includes the most recent changes to courses and degree requirements approved by the Faculty Senate, including changes that are not yet effective. Courses showing the same number indicate that the course information is changing. The most recently approved version is shown first, followed by the older version, in gray, with its last-effective term preceding the course title. Courses shown in gray with only one entry of the course number are being discontinued.
