MEMORANDUM

TO: Matt Hudelson, Executive Secretary
    Faculty Senate

FROM: Becky Bitter, Registrar’s Office

FOR: Academic Affairs Committee

DATE: March 20, 2024

SUBJECT: Proposal to Revise Rule 6g

On March 19, 2024, AAC approved a proposal to revise Rule 6g. The proposal was initiated by the Transfer Center in order to clarify the language in the rule.

The revision is supported by the Office of Admissions. The Transfer Center reported that removing the list of UCORE designations from the regulation and changing to a course-by-course evaluation will create less confusion as to what UCORE designations can be fulfilled by transfer courses.

6.g) Students who have completed the Associate of Science Transfer (AS-T) degree from a Washington state public community and technical college normally will receive the same priority consideration for admission as they would for completing the Direct Transfer Associate (DTA) and will be given junior status and 60 semester credits. Completion of the AS-T degree satisfies UCORE WRTG, QUAN, BSCI, and PSCI, and three of the following requirements: HUM, SSCI, ARTS, DIVR, ROOTS, EQJS. Up to three additional lower-division UCORE may be satisfied via transfer credit, up to the 73-semester credit limit, or via in-residence credit prior to completion of a baccalaureate degree. Additional UCORE requirements will be satisfied on a course-by-course basis. An individual course completed within the AS-T degree may not satisfy more than one UCORE category. Additional courses, up to the 73-semester credit limit, will be reviewed for transfer on a course-by-course basis.
