Bear care starts at 7:20am Mon-Friday and 7:50am on Sat/Sun and usual ends around 8:30/9am. As with all research and animal work, times will vary throughout the year and depend on needs of projects. We will work with each student to make sure there are no scheduling conflicts. Some opportunities (i.e., to observe or participate in research) might occur outside of these times, but we will let volunteers know about these opportunities as they are scheduled. You should plan on being able to work two days a week.
