

Molecular Plant Sciences Graduate Program**Fall 2021 Seminar Series (MPS 515)****Wednesdays at 12:10pm via Zoom**, unless otherwise noted

Date	Location	Speaker	Seminar Title	Title & Affiliation
Aug 25	Zoom	MPS GSO	Student meeting	
Sept 1				
Sept 8	Zoom	Rachel Snyder	Role of sucrose phloem and embryo loading for source and sink physiology in pea plants	MPS PhD Candidate, School of Biological Sciences, WSU
Sept 15	Zoom	Sajina Bhandari	Seed Oil Biosynthesis: Physaria fendleri Does it A Unique Way	MPS PhD Candidate, Institute of Biological Chemistry, WSU
Sept 22	Zoom	Caitlin Jacques	The identification of Arabidopsis SOB3 target genes for regulating hypocotyl growth in short days	MPS PhD Candidate, Crop and Soil Sciences, WSU
Sept 29	Zoom	No Seminar	Faculty meeting	
Oct 6	Zoom	Paul Nicholson	Fusarium head blight of wheat: resistance and susceptibility	Group Leader, Designing Future Wheat, Plant Health, John Innes Centre, United Kingdom
Oct 13				
Oct 20	Zoom	Tarah Sullivan	Soil-Plant-Microbe Interactions and Soil Health	Associate Professor, Soil Microbiology, Department of Crop and Soil Sciences, WSU
Oct 27				
Nov 3				
Nov 10	Zoom	Karl Effertz	<i>Genetic and Functional Characterization of Barley 6H Pyrenophora teres f. teres Resistance Hub</i>	MPS Graduate Student, Department of Crop and Soil Sciences, WSU
Nov 17	Zoom	Patrick Hayes & Javier Hernandez	Barley Resists! Dealing with the Challenges of Climate Change	Professor, Department of Crop and Soil Science, Oregon State University &
Nov 24			University Holiday	
Dec 1	Zoom	Jared LeBoldus	Genomics empowered forest health	Assistant Professor, Department of Botany and Plant Pathology, Oregon State University
Dec 8	Zoom	Matthew McGowan	Into the 3rd dimension: Integrating chromatin structure into multi-omic analysis	MPS PhD Candidate, Department of Crop and Soil Sciences, WSU
