

WESTERN WATER CONFERENCE

“Water Management Strategies for Addressing Long-Term Drought and Climate Uncertainty”

October 28-29, 2015

Radisson Hotel, SLC downtown
Salt Lake City, Utah

We invite you to participate in a two-day conference focused on western water issues.

The conference goal is to provide information on management tools and approaches that can improve water managers’ ability to cope with increased variability of drought and flooding.

- The conference will bring together academics; federal, state and local agency personnel; and water users, water district managers and other practitioners.
- Poster session on evening of October 28. Submission form on registration website (see below).
- Limited travel assistance for students. See registration website for application and deadlines.
- \$50 registration fee includes meals.

Space is limited so register early

For more information and to register: <http://werawater.org/western-water-conference/>
or email: Ginger Paige at gpaige@uwyo.edu or Karina Schoengold at kschoengold2@unl.edu

Hotel arrangements: <http://www.radisson.com/saltlakecity/water> or call 801-531-7500 or 800-333-3333 and ask for Western Conference on Water Management Strategies.

Rooms must be reserved by Oct 6, 2015 for conference rate.

The conference is being organized by two USDA multistate groups (W3190 and WERA 1020) which focus on water resources. Support for conference from USDA-NIFA, the Western States Agriculture Experiment Station & Western States Water Council.
