

# WRC-PNNL SULI Water Internship Program

<https://wrc.wsu.edu/news/wrc-pnnl-water-internship/>

Deadline for Summer 2018: Jan 12, 2018 at 5:00pm ET

The State of Washington Water Research Center is pleased to be partnering with the Pacific Northwest National Laboratory (PNNL) to offer undergraduate internship opportunities to WSU undergraduates who are interested in water resources. This new internship experience operates within the existing [Science Undergraduate Laboratory Internships \(SULI\) Program](#), but aims to facilitate learning opportunities specifically between WSU undergraduates and PNNL researchers.

**This internship program takes advantage of the SULI program to provide students with:**

- Hands-on experience as research interns working at a PNNL facility on a water-related research project under the guidance of a laboratory scientist or engineer.
- A variety of learning opportunities, including enrichment activities, career professional development workshops, laboratory tours, scientific lectures and seminars.
- A stipend of \$500 per week and reimbursement for travel to/from the host laboratory.
- **Students interested in the WRC-PNNL SULI Water Internship program have the added benefit of** ensuring they are placed in one of the four PNNL locations (Seattle, WA; Sequim, WA; Richland, WA or Portland, OR) with researchers that best match their water-related interests.

**Application Requirements** [Apply at: https://science.energy.gov/wdts/suli/how-to-apply/](https://science.energy.gov/wdts/suli/how-to-apply/)

- Students must complete the online application with two letters of recommendation.
- WSU applicants wishing to participate in this water-specific internship program must also:
  1. **Select *Pacific Northwest National Laboratory- Richland, WA*** as their 1<sup>st</sup> choice. Selecting this option will not limit you to the Richland, WA facility.
  2. **Include in the *Research Interests* essay** that you are applying to SULI for the *State of Washington Water Research Center-PNNL SULI Water Internship*.
  3. **Email the WRC once you have submitted** ([swwrc@wsu.edu](mailto:swwrc@wsu.edu)) to have your name placed in the WRC/PNNL SULI internship sub-pool of applications. **This step is critical to helping us match you with a PNNL water researcher.**

## More Information & Eligibility Requirements

For questions about the State of Washington Water Research Center-PNNL SULI Water Internship Program, visit: <https://wrc.wsu.edu/news/wrc-pnnl-water-internship/> or email [swwrc@wsu.edu](mailto:swwrc@wsu.edu).

Eligibility requirements for the State of Washington Water Research Center-PNNL SULI Water Internship Program are the same as those for the SULI program. See [SULI Eligibility Requirements](#).
