These 12 video tutorials have been created to accompany the Arduino Breakdown-Getting Started with Sensors teacher's guide. The video library can be accessed through our [First Nations MESA YouTube Channel](https://www.youtube.com/channel/FirstNationsMESA) to accommodate either in-person or virtual learning environments. Additionally, downloadable visual aids and classroom resources are available through our [First Nations MESA Google Drive](https://drive.google.com/drive/folders/FirstNationsMESA).

1. Redboard  
2. Breadboard  
3. Circuits & Electricity

4. Arduino IDE  
5. Light Sensor  
6. Temperature Sensor

7. Pushbutton  
8. Potentiometer  
9. Distance Sensor

10. Piezo Buzzer  
11. Servo Motor  
12. Motor & Motor Driver
