Psych Students,

We have reached week 10! That means there are just 6 more weeks left of instruction in the semester.

Make sure you save the date for the graduate school events and career workshops that are happening in the next few weeks.

If you are looking to get in the spooky spirit then you should join Psychsquared (Psych Club + PsiChi) for Halloween Night on Tuesday at 5PM in CUE 418!

There are lots of ways to be involved on campus! In this week’s newsletter you will find a couple TA/RA opportunities for spring 2023, a service learning opportunity, and how to apply as a CAS ambassador.

Students **currently enrolled in Psych 311** should apply for admission to Psych before the semester ends. You will find more details on page 6.

Spring registration is fast approaching! Students who still need to schedule a spring advising appointment should do so soon!

Happy Reading!

HANDS OF HOPE HOUSE PARENT PROGRAM

ABOUT THE PROGRAM
The Hands of Hope House Parent Program at Casa de Esperanza provides recent college graduates first-hand experience caring for emotionally and medically fragile children. House Parents commit a year to live and work with the children living in the agency foster homes and undergo extensive training before caring for children.

WHAT WILL I BE DOING?
Everything necessary to properly and safely care for, advocate for, and meet the daily needs of four to five children placed in your home.

WILL I BE DOING THIS ALONE?
No! The community is made up of ten homes in a gated neighborhood with approximately six (6) House Parents in each home.

WHAT ARE THE REQUIREMENTS?
In order to be considered, you must have the ability to make a one-year commitment, be 21 years of age at the time of arrival, be willing to work closely with children with behavioral and developmental challenges, and pass a background and drug test. Valid U.S. driver’s license is also preferred.

DO I HAVE TO HAVE A SPECIFIC MAJOR?
No! All majors are welcome. Common majors include social work, pre-medicine, psychology, education, sociology, health sciences, and social justice. However, House Parents from all educational backgrounds have found success in the program.

HOW WILL THIS HELP MY FUTURE?
A service year as a House Parent gives you the opportunity to gain hands-on experience learning the role abuse, neglect, and the effects of HIV play in the lives of some of our most vulnerable children. You will be working directly with therapists, specialists, and social workers to meet the specific needs for each child, exposing you to several career options for the future.

Questions?
