Psych Students,

We are now in week 5 and halfway through September! The theme for this week’s newsletter is focused on careers in psych. The Career Expo is coming up and we encourage you to attend whether this is your first semester or you are a graduating senior.

This is also the time of year when some of you are applying to graduate school. You will find several opportunities in this newsletter to attend info sessions for various graduate programs in Psychology. We encourage you all to attend these events when you can because it is a great opportunity to learn about the process of applying to graduate school and what these programs look for in an ideal candidate!

September 15 -October 15 is National Hispanic Heritage month. In honor of this we have included some resources so you can learn about some of the significant contributions to the field of psychology by men and women of Hispanic and Latinx descent.

DEPARTMENT OF PSYCHOLOGY ADVISING

Academic Advising Description/Definition:
Academic advising is a collaborative educational process whereby students and their advisors are partners in meeting the essential learning outcomes, ensuring student academic success, and outlining the steps for achievement of the student’s personal, academic and career goals. This advisor/student partnership requires participation and involvement of both the advisor and the student as it is built over the student’s entire educational experience at WSU.

Accommodation requests related to a disability should be made by 9/13/23 to uw.psych.recruitment@gmail.com.

This event is a great opportunity for anyone who is considering a PhD in psychology, especially folks from historically marginalized groups and those often underrepresented in academia, to learn more about UW’s Psychology doctoral program (including the different areas of research, funding, and admissions), and participate in a Q&A session with current graduate students and faculty. We encourage students of all academic stages who are interested in learning more about doctoral degrees in psychology, especially students who are planning on applying to graduate school this cycle, to attend this event.

There is an exciting master's program available from the University of Washington's Department of Psychology that may be of interest to you: The Master of Arts in Applied Child & Adolescent Psychology: Prevention & Treatment.

To find out more, please register for our upcoming Info sessions September 18th or October 2nd 5:30-7pm PST.

This program prepares students for careers providing clinical prevention and intervention services to children and adolescents in various settings including schools, community organizations and health care facilities. Based on a bioecological model of child development, this master's degree provides students with a background in biological, interpersonal and contextual processes that contribute to child psychopathology. Students are also trained in the use of evidence-based treatment programs for improving children's mental health outcomes. Plus, through the program practicum, students gain real-world experience observing and practicing treatment models in local clinical mental health settings.

Our students study under nationally recognized experts in child psychology affiliated with the Department of Psychology, the Department of Psychiatry & Behavioral Sciences, and the University’s Center for Child & Family Well-Being.

This 53-credit intensive program lasts five quarters (summer-summer). Most classes take place starting in the late afternoon or on weekends. Practicum schedules, which average 16 hours a week, are arranged with the practicum site supervisor. Thanks to a recent award of more than $2.2 million in state funding, the Master of Arts in Applied Child & Adolescent Psychology: Prevention & Treatment program is doubling the number of students it trains each year. Starting Summer 2024, the cohort size will increase from 27 to 54 students.

The deadline to apply for Summer 2024 enrollment is November 15, 2023. To apply please visit our website.

For additional questions, contact Program Specialist Chelsea Melton at 206-543-3067 or psychma@uw.edu.

Sincerely,
Lynn Fainsilber Katz, PhD
Program Director
Department of Psychology
University of Washington

The APAPA Internship Program is a professional development internship program, providing professional skills and experiences to help advance our future generation of leaders in government, industry, and community affairs. This program is unique because it provides interns opportunities to put into practice skills that are valuable and transferable in multiple industry sectors.

PROFESSIONAL EXPERIENCE
- **Communications**: Learning best practices for successful communication campaigns.
- **Marketing**: Integrating proven strategies from entrepreneurs, investors, & politicians
- **Public Relations**: Learning skills in direct outreach, public relations, and engagement
- **Virtual Network Building**: Developing a virtual network focused on professional growth
- **Primary Research & Content Drafting**: Writing research plans, analysis, and reports
- **Project Management**: Getting experience in strategic planning and project execution.

EXPECTATIONS
- Work 10-12 hours per week via Zoom (flexible self-scheduled & virtual hours)
- **Workshop Series**: Participate in weekly professional development & training seminars

BENEFITS
- Leadership Positions & Opportunities
- Letter of Recommendation
- Invitation for Future Programs
- Professional Reference
- Professional Development
- Internship Credit for Applicable Majors

APPLICATION INSTRUCTIONS
Apply by submitting your resume to internships@apapa.org by September 24th, 2023 @ 11:59 PM. Early applications will receive an earlier interview and preferred admittance. In the subject line of your email, please write: Intern Applicant – "Your Name". Please attach your resume.

The APAPA Internship Program is powered by APAPA (Asian Pacific Islander American Public Affairs Association). Non-Profit 501 (c) (3) Tax ID #55-0849384. For further questions, please visit: www.apapa.org or contact: (916) 928-9988.
APAPA National Headquarters | 4000 Truxel Road, Suite 3 | Sacramento, CA 95834
SMART SCHOLARSHIP-FOR-SERVICE PROGRAM
Defense Created by Scientists and Engineers
smartscholarship.org

“The SMART Scholarship program has allowed me to continue serving the military community. As an engineer working with the DoD, I better understand the soldier's needs on the battlefield. This allows me the privilege to develop and advance the DoD's radio frequency and millimeter wave biosensor technology.”
– Khaldoon Ishmael, Scholar of the Year Award Recipient

The Science, Mathematics, and Research for Transformation (SMART) Program provides STEM students with the tools needed to pursue higher education and begin a rewarding career with the Department of Defense (DoD). SMART is the largest education to workforce program offered by DoD STEM.

BENEFITS FOR SMART SCHOLARS

Full Tuition
Full tuition, annual stipends, and book/health allowances to students pursuing STEM degrees.

Internships
Receive invaluable experience during summer internships with the Department of Defense.

Career
Pursue full-time employment with the Department of Defense after graduation.

ELIGIBILITY AND PROGRAM REQUIREMENTS

U.S. Citizen
Minimum 3.0 GPA
Degree in STEM
18 Years or Older
Minimum 1 Year
Obtain Security Clearance
Complete Internship
Accept DoD Employment
