Welcome to week 5 of the spring semester. In honor of it being Black History Month we have included information inside this week’s newsletter to help you learn about some of the contributions that Black Psychologists have made to the field of psychology.

Tomorrow (2/6) you have a chance to polish your resume and interview skills in a workshop hosted by the psych peer mentors.

If you need to add a course or two to your spring schedule inside you will find a list of late start courses that you are still able to enroll in for spring.

This week we are also highlighting a post-bacc program in applied psych and an MS in Experimental Psych graduate program.

We also encourage you to attend the various career expos happening this month and save the date for our next industry speaker, Sami Lesnek, on February 27!

Happy reading!
Important Dates & Deadlines

- To learn more and apply visit https://www.georgiasouthern.edu/cbss/psychology/ms-programs/ms-experimental-psychology/
UT AUSTIN
POST BACCALAUREATE PROGRAM
IN APPLIED PSYCHOLOGY

Program highlights:

- Currently recruiting graduating seniors who want to use science and technology to make a positive impact on the world
- Year long research program aimed at improving focus and emotional resilience of teens across the country
- Get deeply involved in applied research that is funded by the U.S. Dept. of Education
- Co-author at least one peer-reviewed scientific article
- Choose a post-bac specialization that aligns with your career aspirations
- Receive career mentorship and extensive support when applying to jobs or graduate school
- Work from your own fully-outfitted private office within the lab
- Help provide tens of thousands of students with evidence-based mindfulness training
- Post-bacc programs are a great way to prepare for graduate school!

Why attend Path to Success Presentations?
• Expand your career options in psychology
• Receive career advice from experienced professionals
• Gain insider knowledge and tips for building up your resume
• Build your networking skills
Summer Research Coordinator Positions at Drexel University WELL Center-Graduating seniors are encouraged to apply!!!!

Applicants are being sought for several full-time research coordinator positions in the Drexel University Center for Weight, Eating and Lifestyle Science (WELL Center). The start date for the positions is Summer 2024. The positions are under the direction of Drs. Evan Forman, Meghan Butryn, Adrienne Juarascio, and Erica LaFata.

The research coordination roles include overall coordination of all study elements; implementing an advertisement/recruitment plan; refining and implementing the assessment protocol; scheduling and conducting participant screening and clinical assessments; managing data and databases; maintaining contact and approvals with NIH and IRB; collecting data with wearable sensors.

To apply, please take the following two steps: (1) Complete an official application. (2) Complete a supplemental information form. Applications are reviewed as they arrive, with the intent to begin interviews in February 2024, so please apply as soon as possible.

The Center is staffed by faculty, post-doctoral fellows, research coordinators, clinical psychology Ph.D. students, and undergraduate students, providing an environment rich in intellectual stimulation and mentorship. The position represents an excellent opportunity to gain experience in obesity/eating disorders clinical research and to be trained in both research and clinical tasks. **This position provides excellent preparation for individuals who wish to pursue graduate study in clinical psychology or a related area.** Opportunities also will be available, as desired, for grant application preparation, research diagnostic assessment training, additional data analysis, and preparation of poster presentations and/or manuscripts related to the projects. Coordinators also have the opportunity to be exposed to and, in many cases, involved in intervention delivery.

This intensive summer research experience provides mentoring and research experiences while allowing scholars to preview graduate school life. Students with a strong interest in graduate programs are encouraged to apply, as are those from populations traditionally underrepresented in graduate education.

- Applied Plant Systems
- Applied Unmanned Systems
- Beneficial Insects
- Bioenergy Systems
- Biomedical Engineering
- Chemistry
- Crop-to-Food Innovation
- Digital Legal Research Lab
- Engineering Education Research
- Health Equity
- Nanotechnology Coordinated Infrastructure
- Quantum Materials
- Redox Biology
- Sustainability of Civil Infrastructure
- Virology

AVERAGE STIPEND RANGE
$5,000–$6,000

PROGRAM DURATION
June 3, 2024 – August 7, 2024

APPLICATION OPENS
November 15, 2023

The benefits:

Stay in suite-style housing, enjoy an on-campus meal plan, and have travel costs covered.

Attend workshops for data visualization, scientific writing, creating a research poster, and more.

Visit the Omaha Henry Doorly Zoo, rent bikes to explore Lincoln, attend a Lincoln Saltdogs baseball game, enjoy a day at the lake, and more.

HEALTH PSYCHOLOGY

Health Psychologists make important contributions to the well-being of their patients by incorporating psychological theory and research to develop methods to assist patients in maintaining healthy lifestyles. They also help patients manage chronic disease and avoid preventable diseases, and provide rehabilitative services to persons with acute injuries and chronic diseases.

CAREER OPTIONS

Psychologists in this field are engaged in academic research, professional practice, and education and training across an array of community, clinical, occupational, and acute health care settings.
