Are you looking for an outstanding doctoral program in Mathematics and/or Science Education? The PhD program at Washington State University allows for an individualized, focused program of study. Choose your location! You can join our program on the Pullman, Spokane, Tri-Cities, or Vancouver campus of WSU. As a student in this program you will have opportunities to:

- Work with nationally and internationally recognized faculty with specific areas of expertise (e.g., STEM education, scientific and mathematical argumentation, student learning, teacher development, and equity) who provide personal mentoring and instruction

- Collaborate with students and faculty across four university locations, giving you access to a wide variety of school contexts

- Examine research in both mathematics and science education allowing you to focus on an individualized discipline or an integrative STEM approach

- Work with faculty on research and professional development projects with local K-12 schools and state-wide agencies

- Impact K-12 schools and teachers through your own research

**Faculty**

- **Andy Cavagnetto, Ph.D**
  Argumentation, classroom interaction, student-to-student talk in science
  andy.cavagnetto@wsu.edu

- **Jonah Firestone, Ph.D**
  STEM schools, computer science education, serious educational games, neurocognition & learning
  Jonah.firestone@tricity.wsu.edu

- **Janet Hart Frost, Ph.D**
  Innovative mathematics education effects on teaching and learning; health science-education collaboration
  frost@wsu.edu

- **Tamara Holmud Nelson, Ph.D**
  STEM education implementation in schools and districts, education for sustainability, teachers’ professional learning
  tnelson1@wsu.edu

- **Molly Kelton, Ph.D**
  Mathematics learning across formal and informal settings; embodied cognition; integrated STEAM education
  molly.kelton@wsu.edu

- **Kristin Lesseig, Ph.D**
  Teacher professional learning to promote mathematical reasoning in K-12 classrooms
  kristin.lesseig@wsu.edu

- **Judith Morrison, Ph.D**
  Science teacher professional development; STEM school contexts and curricula
  jmorriso@tricity.wsu.edu

- **Annick Rougee, Ph.D**
  Mathematics teachers’ management of students’ responses, including cognitive and affective factors
  annick.rougee@wsu.edu

- **Amy Roth McDuffie**
  Mathematics teachers’ professional development; equitable practices; use of curriculum
  mcduffie@wsu.edu

- **David Slavit, Ph.D**
  STEM schools; PBL; teacher collaboration; student learning
  dslavit@wsu.edu
