

*Issues of Environment & Climate Change,
From one of WSU's own Experts in the Field*

RCI Annual Interdepartmental Lecture 2017-18

Free & Open to the Public

***Professor
Katie
Cooper***

School of the Environment

***Washington
State
University***

Tue, Sep 12, 7pm, CUB 220 (Senior Ballroom)

***“Plate Tectonics: How the Earth’s Interior
Impacts Elections, Cell Phones, Global
Climate, and You”***

This talk will explore the emergence of the theory of plate tectonics, explain the importance of building scientific consensus, and demonstrate several surprising ways that the slow motions of the Earth’s surface dramatically shape our daily lives.
