

Family Science Saturday: How We Grow Up – And How Animals Do, Too!

December 2, 2017

950 NE Nelson Ct, Pullman, WA 99163

11 AM – 2 PM

Join WSU Students as they explain the wonderful world of developmental biology. Visitors of all ages are welcome to come engage in interactive learning stations that demonstrate the development of animals, humans, teeth, fur, feathers, eggs, and so much more! There will be hands-on displays, interactive games, and videos explaining what happens to animals during the very beginning stages of life.

Get ready to color, play, and learn!
