Training and Orientation Checklist for Food Engineering Research Groups

Instructions:

□ Safety Orientation Checklist□ Pandemics: Slowing the Spread

Trainee: Print Learning Transcript from the Skillsoft training website by going to My Profile → Learning Transcript. Bring Skillsoft transcript, asbestos training certificate, completed safety orientation checklist, and this form to your supervisor for verification. After verification make two copies of the materials and give the original to the BSE main office, give one copy to your supervisor and keep the final copy for your records.

Supervisor: Verify that required training and any additional training required for you research group (i.e.-biosafety, food safety, driver safety, etc.) has been completed and sign. Keep a copy for your records.

Required general safety training for \underline{all} Biological Systems Engineering faculty, staff, students and visitors:

	Disinfecting the Workplace for COVID-19
	Back Safety and Injury Prevention
	Slips, Trips and Falls
	Emergency and Fire Safety Preparedness
	Portable Fire Extinguisher Safety
	Office Ergonomics
	University Laboratory Safety - Working Safely
	<u>Asbestos Hazard Awareness</u> - this course is located in a different training system, be sure to save the training certificate.
	Responsible Conduct of Research Training - this course is located in a different training system, be sure
	to save the training certificate.
	<u>Discrimination and Sexual Harassment Prevention -</u> this course is located in a different training system,
	be sure to save the training certificate.
visitors	Atory safety training required for any Biological Systems Engineering faculty, staff, students and s who are working in laboratories. University Laboratory Safety – Analyzing Chemical Hazards University Laboratory Safety – Analyzing Physical Hazards University Laboratory Safety – Analyzing Developing and Using Controls Risk Assessment PPE – Eye and Face Protection
	PPE – Hand Protection
Hazard specific safety training for group members.	
	Introduction to Biosafety for those who work with potentially biohazardous materials. Food Safety for Food Handlers for those whose work will include handling food for consumption. Driver Safety for those who will drive University vehicles. Distracted Driving for those who will drive University vehicles.
Name o	of faculty, staff, student, or visitor:
Completion of training verified by: Date: Name of Supervisor
