

**You are Invited to Attend:**

## **Climate, Land Use, and Agricultural and Natural Resources: Activities in Interdisciplinary Research, Education and Outreach**

**3:30-6:00pm on Tuesday, November 19, 2013**

**Location: CUB 212 (CUB Junior Ballroom)**

**Pullman Campus, Washington State University, Pullman, WA**

### **Overview**

The Biosphere-relevant Earth system modeling (BioEarth) team with the Watershed Integrated System Dynamics Modeling (WISDM) team, the Center for Environmental Research, Education, and Outreach (CEREO); the Center for Sustaining Agriculture and Natural Resources (CSANR); and the State of Washington Water Research Center (SWWRC) invite you to attend and present a poster at a session dedicated to the topic areas of climate, land use, and the sustainable management of our agricultural and natural resources.

### **Objectives**

- 1) Increase awareness of related ongoing research projects
- 2) Promote interdisciplinary research, education, and outreach

### **Topic Areas**

1. Overviews of Integrated Projects
2. Communications and Stakeholder Engagement
  3. Environmental Ethics and the Arts
  4. Economics and Social Sciences
5. Atmospheric Processes: Air Quality and Deposition
6. Atmospheric Processes: Meteorology and Climate
  7. Terrestrial Processes
  8. Aquatic Processes
9. Impacts on Animals and Insects
